

Merlin

Transparent Pharmacy Benefit Administration

Merlin is a flexible web-based application that makes connecting all aspects of member care easy. Merlin's leading-edge technology can be tailored to your organization's needs with different modules. These include:

- > **REAL-TIME ELIGIBILITY**
Create new members and update eligibility right from the member module.
- > **PLAN DESIGN**
Set up plans from start to finish; support transparent and traditional pricing models.
- > **FORMULARY MANAGEMENT**
Use with multiple formularies and customizable formularies.
- > **PRIOR AUTHORIZATION**
Enter prior authorizations and create overrides with ease.
- > **CASE MANAGEMENT**
Manage a variety of clinical programs and Medication Therapy Management (MTM).
- > **REPORTING MODULES**
View reporting dashboard with high-level performance and utilization metrics; run standard reports with up-to-the-minute claims and utilization reporting.

Our platform delivers flexible, customized solutions that connect people, technology, data and care. Put our expertise to work for you today.
