## Herringbone Tile Dining Table

Dining table with tiles in herringbone pattern and powder coated metal frame with a lightly structured structure. Designed in 2017 by Charlotte Høncke. The design is inspired by the traditional tile-topped table which go back hundreds of years; indeed, the Herringbone Tile tables embraces historical references and classic craftsmanship in a contemporary design. The Herringbone Tile dining table captures the kitchen, eat-in kitchen or dining room with class, modern charm and elegance. Style and functionality go hand in hand as hot pans, dishes and other hot objects can be placed directly on the dining table. Choose between frames and tiles in several colours.
