Swing Rocking Chair

Hans Olsen's timeless rocking chair with its beautiful woven back, designed in the 50s, is a perfect example of the genre. The renowned Danish architect created a simple, yet sophisticated design, which will look great in any home. The back is hand-woven in cane – strong shavings from the inner pith of the rattan palm – in a simple, airy pattern which, together with the simple wooden frame, lends the rocking chair a light appearance. Beautiful from all angles, the Swing Rocking Chair combines aesthetics and comfort with elegant details such as a headrest and a seat cushion, making the rocking chair comfortable to sit in, even for long periods of time. Choose from the highest quality aniline leather and curated fabrics from the Warm Nordic universe. The wooden frame comes in several different surface treatments.

Product name: Swing Rocking Chair
Designer: Hans Olsen
Design year: 1956
Furniture type: Rocking Chair
Launched: 2020

KEY FACTS

- Classic timeless design
