

## COMMUNICATION SERVICES GOOGLE CLASSROOM EDUCATIONAL EXPERIENCE

### JOIN US VIRTUALLY!

The Communication Services Department has created a learning platform through Google Classroom that will continue to grow each day and the coming weeks as we virtually launch into themed lessons, world news, and thought-provoking articles in the comfort and safety of our homes. We have planned visual lessons that will spark individual interest and offer a learning experience to all. Join us Monday through Friday at our Google Classroom under “classwork” to access new daily resources and materials to use and partake in. Using these lessons, feel free to team up with your family, a friend, or REACH staff to engage in an educational experience and gain more information about a variety of world news and topics!

If you need any technical help or have questions, please don't hesitate to ask us via email at [reachcsdept@gmail.com](mailto:reachcsdept@gmail.com) or by simply connecting with your Education Program supervisor, REACH Assistive Technology Specialist, or Speech clinician.

### TO JOIN US, [CLICK HERE FOR INSTRUCTIONS](#)
