

WESTWOOD FREE STAND GAS STOVE

WESTWOOD FREE STAND GAS STOVE

Introducing the Westwood, the new freestanding stove from Savannah!

The Westwood boasts one of the boldest flames we have ever designed. The entire bottom of the burn chamber is one big stainless pan burner and much like the DVI26,000 Champion, the flame works its way around the log set creating an incredibly realistic burn. The log set and brick set are new designs for us; the brick being a darker shale rock design and the log set is big, bold, dark and charred.

The stoves slightly more contemporary design is meant to fit in with the rest of our lineup. It is also different and somewhat modern compared to the tired traditional look of free-standing stoves out there. Modern, but not too modern. We always aim to be unique!

Quality Craftsmanship

Savannah's products are designed with superior components and materials, assembled by trained craftsmen who take great pride in their work. The burner and valve assembly are leak tested and test fired at a quality control test station. Once assembled the complete fireplace is thoroughly inspected by a qualified technician, before packaging, to ensure that you, the customer, receives the quality product that you expect from Savannah.
