

## Community Service Hours

To promote community responsibility and to foster a sense of pride in the school, students in all grades are encouraged to volunteer at school or in the community.

- Students who perform ten hours of service during the year will be recognized for their efforts at the year-end Awards Assembly.
- Five hours of community service above the Service Projects are a graduation requirement for all eighth-grade students.
- Five hours of community service are required of all seventh graders.
- Five hours of community service are required for all beta students. This is in addition to the number of hours required for seventh and eighth grade students.

Service hours will be tracked through the office. Completion of this form is required for the hours to be eligible. Submit separate forms for separate service projects.
