

## Kompuestos nominated for the European Small and Mid-Cap Awards 2020 in the 'Rising Star' category

- The 8th edition of the European Small and Mid-Cap Awards 2020 will take place in Berlin in November, during the European Commission's SME Week
- The objective of the Awards is to promote best practices and highlight the best European Small and Mid-Sized Companies that have gained access to capital markets via an Initial Public Offering (IPO)

Barcelona, June 30<sup>th</sup>, 2020. [Kompuestos](#) (Plásticos Compuestos S.A.), MAB-listed company and leader in the production of sustainable plastic compounds in Europe, **has been nominated for the European Small and Mid-Cap Awards 2020 in the 'Rising Star' category.**

The 8th edition of the European Small and Mid-Cap Awards will be held in November during the the European Commission's SME Week in Berlin, organized in collaboration with European Issuers and the Federation of European Securities Exchanges (FESE). The aim of these awards is to highlight the best European small and mid-cap companies that have managed to access capital markets through an Initial Public Offering (IPO), highlighting the wide diversity of European markets and boosting the stock market listing of those SMEs that have demonstrated best practices.

As highlighted by the organisation of the awards in its [press release](#), SMEs are key to achieving the EU's objectives in terms of job creation, competitiveness and growth, and it highlights the various advantages that access to finance on the securities markets can bring to these companies. The winners of this year's European Small and Mid-Cap Awards will be announced at the awards ceremony in November.

**Ignacio Duch, president and CEO of Kompuestos, stated that** *"it is an honour for us to be considered for an award which acknowledges the effort that we have made at Kompuestos since we started operating, and which we continue to maintain now, above all, with our new innovations: our Biokomp and Okean ranges of compostable bioplastics. We want to be leaders in the circular economy of plastics while bringing value to our investors, customers and employees. This is where we have always wanted to go and we will continue to do so"*.

### About Kompuestos

Kompuestos, a listed company in Spanish Alternative Stock Exchange, is a leader in the production of sustainable plastic compounds in Europe. Based in Barcelona, it is one of the leading international suppliers of high-performance compounds aimed at reducing the carbon footprint in the production of plastics, which are used as raw material in multiple industries worldwide.

Kompuestos has developed and certified a complete range of biodegradable products for the replacement of traditional plastics, especially in sensitive applications such as single-use bags and hard-to-recycle products.

The company maintains a strong commitment to the environment. In this sense, it is positioned in favour of the circular economy of plastics and is committed to sustainable innovation by developing biodegradable and compostable products as well as mixtures with minerals that improve the imprint of CO<sub>2</sub>. The company is developing advanced technologies and plastic recycling additives so that they can be properly reused and the result is not second-rate products and difficult to apply.
