On the edge of large-scale deployment of C-ITS in Europe

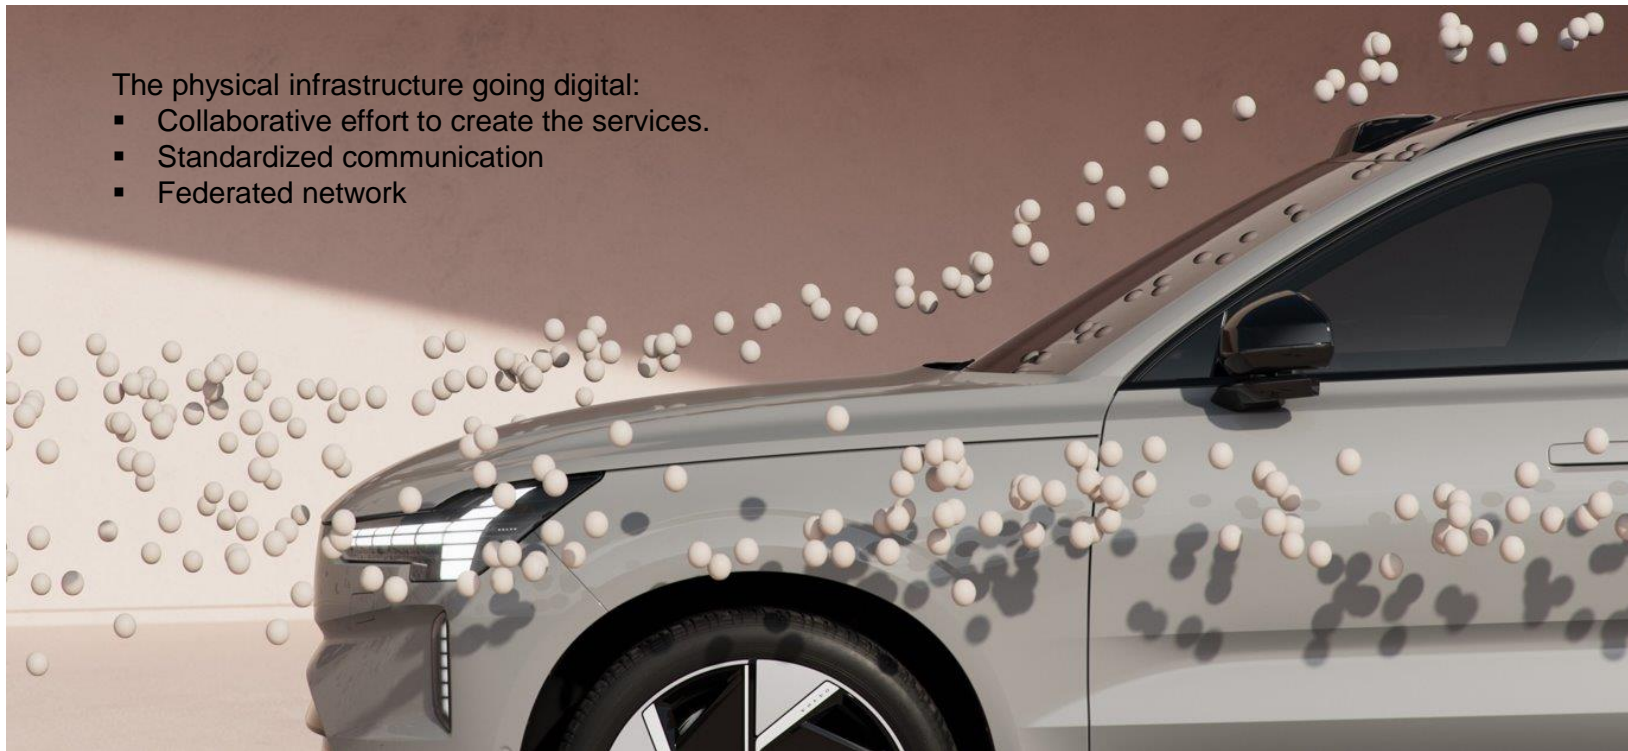

On the edge of large-scale deployment of C-ITS in Europe

On the edge of large-scale deployment of C-ITS in Europe

The physical infrastructure going digital:

- Collaborative effort to create the services.
- Standardized communication
- Federated network

Looking forward – an OEM perspective from Volvo Cars

Freedom to move in a personal, sustainable and safe way.

Pan-European solution

Need trusted actors to take
responsibility for interchange
nodes

We at Volvo Cars believe that
we together can make the
transport system safer and
more efficient by sharing data
