**Why did you choose a destination wedding?**

We wanted a small island where we could have an intimate time with our friends. We also wanted great weather and a white sandy beach.

**Why did you select the destination and venue you did?**

The W is a small island ensuring privacy with great food and amazing service.

**Did you have guests attend, and if so, what was their reaction to you having a destination wedding?**

We had 40 guests attend and everyone loved it. It was fun to have all of our friends together – everyone especially enjoyed the crazy after party!

**What is your favourite memory of the day?**

Our first dance was very special for us as we practised our routine so we were excited to show it off to everyone.

**What was the best thing about having a destination wedding?**

We had an intimate ceremony with our family and close friends so we didn't need to worry about any of them feeling left out.

**What theme or style did you base your wedding decorations on?**

We wanted it to be fun and romantic – since the Maldives is so beautiful we kept our decorations very simple.

**How did your wedding coordinator assist you?**

Bliss Creations did a great job communicating with W on the entire project and we didn't have to make many compromises during the planning.

**Did you honeymoon in the same location?**

No, we went to Kenya to witness the great migration as we had already had our beach time in the Maldives.

**What's your best piece of advice for a couple planning their own destination wedding?**

Relax and trust your planner!
