

WELCOME TO THE 6th OBD EVENING AGENDA.

19th AND 20th AUGUST 2024 OSLO, NORWAY.

Welcome to our OBD2024 evening events where professional growth and networking converge in a memorable conference experience. This year, we emphasize the power of informal gatherings in sparking meaningful connections and innovative ideas through two unique evening events.

Evening Event Monday 'The Hay Barn'

The Hay Barn (Høymagasinet) is part of Akershus Fortress, the main seat of the Norwegian armed forces, but also a national monument and a lively urban area for most people. The high-rise warehouse was threatened with demolition for a long time but was restored by the city antiquarian in the 1980s and is now protected. All measures taken to facilitate public use have been approved by the National Antiquities and the City Antiquities.

Over the years, the hay barn has been used as an event space for concerts, weddings, film recordings, art exhibitions, and business events. After extensive modernization in 2018-2019, The Hay Barn is available to the public as a cultural scene, function room, and café on historic grounds - in the middle of the city.

Welcome!

Evening Event Tuesday - Fjord Cruise

Join us on Legacy of The Fjords for a cruise around the Oslofjord – a round-trip on one of the world's most innovative ships. Up close to the city offering great views of the idyllic islands in the inner Oslofjord. If available we could even take a look at the battery ammunition building. When it comes to sustainability, the fully electric Legacy of The Fjords is unique, setting new standards for boat trips on the Oslofjord. This new sightseeing boat has been built to meet requirements for zero/low emissions, contributing to sustainability that protects both nature and current and future generations.

Welcome!

Legacy of The Fjords is the newest all-electric sister ship of Vision of the Fjords.
