

## AdvanceTEC Secures Multiple Leading-edge Pharmaceutical Design-build Contracts with CRB

**Company comments “After 20 years in the business, 2019 takes us from ‘Zero to Hero’”**

**Richmond, VA, November 20, 2019 –** AdvanceTEC, the leader in cleanroom design, cleanroom construction and mission critical process integration, today announced that the company has been selected by CRB for three leading-edge pharmaceutical design-build cleanroom projects.

Headquartered in Kansas City, Missouri, CRB is a leading consulting, design and construction services firm serving pharmaceutical, biotechnology and other technology & schedule demanding industries. CRB has offices across the United States and the world equipped with full multidisciplinary teams to support a wide range of project types and sizes. This announcement marks the first time CRB and AdvanceTEC have collaborated on leading edge design-build biopharma projects.

“At AdvanceTEC, we see our project collaboration with CRB as a key milestone for the company and our people,” noted Bryan Phelan, AdvanceTEC managing partner and director of sales, marketing and business development. “CRB is a well-respected firm with an ever-expanding share of the biopharma EPCM market. It was clear from our first meeting that the bar was set high for AdvanceTEC to displace their past provider. We are proud to announce that we not only displaced our competition, we are focused on exceeding CRB’s expectations.”

Phelan continued, “A number of factors differentiated us from the pack in the competitive selection process for each of these projects. First and foremost, we demonstrated the technology-driven design-build leadership of our team – which I believe is unmatched in the segment. Our technology is leading-edge – from digital scanning and advanced BIM modeling to project estimating and field management tools. Our open market business approach also has demonstrated real value that CRB can bring to the end client. Most importantly it’s our people—working with their people in a streamlined, efficient, and collaborative manner.”

– More –

The company noted that all of the projects are on schedule, and currently in the late stages of design and preparing for construction.

#### **About CRB**

Founded in 1984 as a single three-person office, CRB has grown to a team of more than 1,000 in a network of offices serving clients throughout the world. Fueling this growth is its people and CRB's approach to serving our clients: an unrivaled passion for seeking out the right solution on every project; deep technical expertise to tackle the toughest challenges; a network of team members who thrive on collaboratively performing work of the highest caliber; thought leaders who dedicate their expertise to advance our industry and make the world a better place... and individuals committed to developing trusted, longstanding partnerships with our clients.
