

## AdvanceTEC Named to ENR's 2016 Top 600 Specialty Contractors List

*Latest award underscores AdvanceTEC's commitment to client project success*

**Richmond, VA, December 12, 2016** – AdvanceTEC, a leader in cleanroom engineering, design, construction and process tool install and integration, today announced that it has again been named to Engineering News-Record's (ENR) Top 600 Specialty Contractors listing. The ENR 2016 award recognizes AdvanceTEC based on its 2015 annual cleanroom construction revenues.

"AdvanceTEC is honored to be recognized once again in the prestigious ENR Top 600 List of Specialty Contractors," noted Bryan Phelan, AdvanceTEC managing partner and director of sales, marketing and business development.

"Our continued growth and inclusion in this list hinges on the value we deliver for every client on each project. We focus on listening to our customers, understanding their requirements, and then providing solutions that enable their success. We also realize that what we define as success today will not be good enough for tomorrow's requirements. Our ongoing investments in our people, technologies and capabilities are key to ensuring our clients' continued success, and AdvanceTEC's continued growth."

Through lists like the Top 600 Specialty Contractors, ENR attempts to bring structure to an otherwise huge and chaotic construction industry by performing annual surveys of its key segments, and ranking companies engaged in general contracting, specialty contracting, engineering, architecture and environmental services, among other specialties. The rankings, based on annual revenue at home and abroad, are further divided into specific market categories. Published online at [www.enr.com](http://www.enr.com), the Top 600 Specialty Contractors listing is based on revenue generated from projects during the preceding calendar year.
