

## AdvanceTEC Selected to Provide Strategic Facility Optimization for Repeat Biotech CDMO Client

*Proven teamwork, collaboration, and track record of performance coupled with leadership in technology, prefabrication, and field execution will be utilized to deliver production enhancement for leading-edge gene therapy facility.*

**Richmond, VA, June 20, 2022–** AdvanceTEC, the leader in cleanroom design, construction, and mission critical process integration, today announced that the company has been awarded an additional design build cleanroom contract for a leading gene therapy CDMO. As a part of this project, AdvanceTEC will be maximizing the development of a significant production productivity enhancement that will deliver a rapid return on investment for the client. AdvanceTEC's work will be strategically planned around a high-volume 24x7 production site to avoid business interruptions for the customer.

AdvanceTEC was selected for this critical project based on the company's proven performance delivering seven different cleanroom projects. While showcasing AdvanceTEC's capabilities on these projects, the team was quick to find out that their past achievements and value has built a level of trust and respect throughout the client's project team.

AdvanceTEC is responsible for designing, 3D BIM / VDC modeling and integrating the cleanroom with high-performance finishes adhering to the client's objectives. The facility will be outfitted with ISO 7 Class 10,000 and CNC clean spaces. The team will be utilizing their offsite prefabrication facility for just in time deliveries as well as continued enhancement of AdvanceTEC's safety practices.

### **About AdvanceTEC**

AdvanceTEC is the leader in cleanroom design, construction and mission critical process integration serving clients in Biotech, Nanotech and Cleantech applications. Since its founding in 2000, AdvanceTEC has successfully constructed facilities for research, pilot production and high-volume manufacturing applications. The company works with leading technology companies, construction managers, architectural engineering firms to construct state-of-the-art cleanrooms to enable tomorrow's technology. Its expertise is turn-key design/build projects, where schedule, certainty of cost and total performance is critical.
