

Arizona House Bill 2570, Study on Missing and Murdered Indigenous Women & Girls (MMIWG), was passed in 2019 and has several tasks. One is to listen to the experiences of MMIWG in Arizona State in both Rural and Urban communities. The Study is seeking Voluntary Participants.

- Are you a family survivor of a murdered loved one?
- Do you have a loved one is still missing?
- Have you ever been missing?

**The Study involves a virtual confidential interview conducted through ZOOM, Go To Meeting, Facebook Messenger Video, or by phone. Option will be determined by the Participant.**

Unfortunately, COVID-19 does not allow us to conduct in-person interviews. We will honor your local COVID-19 Tribal Executive Orders.

Interviews will be conducted by Interviewers who have Certification in Human Subject Research, with victim centered and trauma-informed backgrounds.
