Standing together for a fair return on our work

Our employer needs to step up in the current negotiations. Until then, we are all participating in a ban on attending or taking part in programme committee meetings; a ban on work relating to moderation or confirmation of assessment results; a ban on entering any grades/results into the Arion Student Management System; and a ban on otherwise providing grades or results.

This will impact on students as our conditions of work are our students' conditions of learning. All our employer needs to do is #PayFair

Stand with us - together we can make Wintec a great place to work.
