

#### 'A PILE OF SUITCASES' WARDROBE A

by Maarten De Ceulaer

Maarten De Ceulaer's eye-catching design was quite the crowd-puller at Casamania's stand at the Salone in Milan. Whimsical but robust, his bespoke modular wardrobe allows various landscapes of beautiful leather boxes. The resulting pile is just the right side of gimmicky. *'A Pile of Suitcases'*, prototype, by Maarten De Ceulaer, for Casamania, [www.casamania.it](http://www.casamania.it)

#### 'DRAWER SIDE TABLES' ▼

by Tina Roeder

Berlin-based designer Tina Roeder transforms the simple drawer into a quirky universal assistant with this prototype series of disembodied drawer side tables. They formed part of Roeder's first solo show, *'Independent Furniture'*, during this year's Milan Design Week. In solid European oak or steel with a variety of finishes, they turn the tables on the traditional bedside companion. *'Drawer Side Tables'*, price on request, by Tina Roeder, tel: 49 17 5750 1259 (Germany), [www.tinaroeder.com](http://www.tinaroeder.com)

#### 'AUTHORITY SYSTEM' DRAWERS ▼

by Philip Edis

'Brutal, safe and elegant' is how young Swedish designer Philip Edis describes his *'Authority System'* storage, which was inspired by high-security interiors. A highlight at the Satellite show in Milan this year, Edis's pieces stood out for their bold design and quality finish. The graphite colour and prism shape of the drawers create an optical illusion, like a Bridget Riley print, and seem to change in different lights. *'Authority System'* drawers, €2,700, by Philip Edis, tel: 46 7 3658 9617 (Sweden), [www.philipeds.com](http://www.philipeds.com)
