johnhdolan@homepricefutures.com

### Overview

#### **Objective**

• The purpose of this monthly report is to compile information from a variety of sources into one place, at a point in time, to facilitate the understanding, analysis, awareness, and hopefully trading of the CME Case Shiller Home Price futures (and options) and other housing derivative products. Feel free to contact me if you have an ideas for an outright trade, calendar spread, option or inter-city theme.

#### **Market Color/Discussion**

- Resources: www.homepricefutures.com
- Market Updates: Twitter @HomePriceFuture
- LinkedIn: There is a CME Case Shiller home price futures group, but I use Twitter and blogs more often.
- Note: Almost all of the bid/ask quotes that are used here are my record of end-of-trading day prices, and thus may differ from CME closes and quotes, which are tallied an hour earlier.
- I use CUS and HCI interchangeably for the 10-city index. Different trading platforms use different symbols. Sorry for any confusion.
- Based demand for hedging products for other regions I recently launched Home Price Hedging Fund <a href="https://www.homepricefutures.com/hphf">https://www.homepricefutures.com/hphf</a> Contact me with any interest in hedging Top 50 cities.

### **Observations for Mar 2021**

### Trading/Quotes/Spreads/Activity:

- Only eight lots traded in March, in four regions and three expirations.
- Prices continued to rise, particularly after the Mar. 30<sup>th</sup> index updates.
- Bid/ask spreads widened slightly in key markets (K21, G22 and G23).
- Third party interest was sporadic.
- I'm quoting OTC options (puts and calls) on 20 Case Shiller indices. See
   <a href="https://www.homepricefutures.com/options">https://www.homepricefutures.com/options</a> for updates.
- I'm also to posting levels on OTC home price agreements, referencing cites not covered by CME contracts, using my HPHF platform. See <a href="https://www.homepricefutures.com/my-quotes">https://www.homepricefutures.com/my-quotes</a> for color.
- I'm open to quoting agreement on international cities and have been updating the Compass Paris home price index and HPHF Feb '22 forward levels as the index is updated biweekly.
- Please feel free to DM me on ideas for trades on any of the above.
- This recap is somewhat pared down from prior versions. DM me for color on calendar and intercity spreads.
   johnhdolan@homepricefutures.com

## Price Changes/ Mar 31 v Feb 26

- Bids were higher across all regions and expirations (in aggregate).
- Bid/ask spreads were tighter in three key expirations (K21, G22, and G23).
- Only markets with two-sided quotes are tallied. For this month, that's K21, G22, G23, and G25.

## Bid/Ask Spreads

- Tightest two bid/ask spreads (by expiration) in green/ widest two in red.
  - Bid/Ask spreads widened during March. For example, K21 contracts had an average spread of 2.8 points last month-end. Today they the B/A spreads average 3.5 points. This may be due to CS update occurring the day before month-end.
  - Quoted spreads are often posted GTC markets for 1x1 (one bid vs one ask) so that I can leave them open for hours at a time without constant monitoring. DM to discuss better prices, or increased sizes.
  - I don't intend to fill out G24, G26 contracts until requested, as I believe that G23 and G25 should satisfy mid- and longer-term outlooks.

| BID/ASK Spread |     |      |     |      |     |      |     |      |     |      |     |     |

## Forward Curve: v Pre-Covid (2/21/2020)

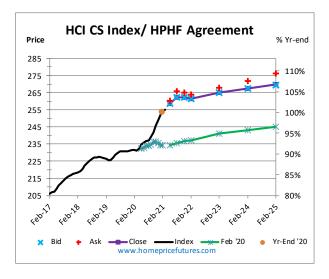

- Forward curves are solidly above levels from last Feb, and far above lows reached in April.
- Short expiration curves have some steepness, but longerdated contracts are near flat as hedging inquiries dwarf buy interest.
- DM me for curves on ten regional contracts.

<sup>\* -</sup>Mid is shown where no CME contracts exists

## Trading Activity: Mar/Rolling-12 mon

- Eight lots traded in March in four regions and in three expirations.
- Third-party activity remains quiet.
- My tallies may differ from CME by 1-2 lots in 2020 YTD and rolling 12.
- Rolling 12-month tallies are collapsing as busy months of Feb-April 2020 (when margin increases, change of contract expirations, market reaction to Covid lead to trading surge) drop from 12-month totals.
