

Electric Slicers

Our fantastic range of medium and heavy duty cooked meat slicers are manufactured by FAC. Based in Italy, FAC has been manufacturing high quality slicing machines since 1961 and now export their products all around the world.

The electric slicers are available in medium and heavy duty to suit any requirements. All machines have high precision slicing thickness control to ensure you get the exact results you require. They are all fitted with removable sharpening stones to keep the blade as sharp as possible to ensure you get a smooth and precise slice every time. The meat carriage is mounted on ball bearings which create exceptionally smooth running.

The FAC slicers are very safe machines to use as they have rubber feet that grip the work surface firmly in addition to other safety features including: emergency stop button, no volt release safety cut-out, and a special fenceplate locking mechanism for the safe removal of the blade and meat hopper. These machines are fully commissioned by our expert engineer before we send them out.

Fabulous 2 years
parts and 1 year
labour warranty
