December 12, 2008

To Whom It May Concern:

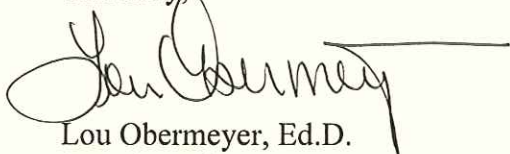

Valley Center-Pauma Unified School District awarded a contract for the replacement of the Valley Center High School Stadium's turf and track surfacing to Byrom-Davey, Inc. in June of 2008. Demolition of the existing turf and track began on June 16, 2008, and the completion date was scheduled for August 25, 2008.

We were cautioned by other school district facilities professionals that "it couldn't be done" in that short timeframe, but Byrom-Davey assured us that the project could, and would, be completed on time. The Valley Center Jaguars not only played their first home game on the new field, but they were able to take occupancy on August 22nd, giving them valuable practice time on the new surface.

From the first day of the project to the last, everyone associated with Byrom-Davey treated this project as if Valley Center High School was their **only** priority. They are, without a doubt, one of the very best companies that we have ever had the pleasure to work with.

Valley Center-Pauma Unified gives Byrom-Davey our highest, and unqualified, recommendation.

Sincerely,

Lou Obermeyer, Ed.D.
Superintendent
