- Code package testing
- User training and acceptance testing

Client

BUUK Infrastructure

Industry

Professional services

Organisation size

1001–5000 employees

Country

United Kingdom

Product

Microsoft Dynamics AX

PROJECT DESCRIPTION

BUUK Infrastructure's businesses design, construct, own and operate utility infrastructure networks throughout England, Wales and Scotland.

These networks are almost exclusively installed on new-build housing, mixed-use and commercial developments.

ANEGIS' commitment and reliable approach were a key factor in our decision to work with them, and they continue to deliver in an effective and timely manner. I have no hesitation in recommending ANEGIS as a professional and experienced business partner.

Neil Hammond, IT Director, BUUK Infrastructure.
