

SEIZE THE CHANCE, EXCLUDE THE LAA

AtriCure's AtriClip products are the most widely sold Left Atrial Appendage (LAA) management devices worldwide.

>97%
successful LAA
exclusion^{1*}

Epicardial Exclusion

- Implant is not in the blood stream
- Ischemic injury electrically isolates the LAA
- Atrophy and resorption of the LAA

Dynamic Closing Force

Continuous closing force maintains LAA exclusion throughout changes to the tissue caused by ischemia

Parallel / Linear Closing

Minimized occurrence of tissue folds with optimal apposition of tissue along long axis of LAA ostia

Tissue Compression / Atraumatic

No cutting, non-piercing, and atraumatic compression reduces risk of tissue tearing and bleeding
