

JAS

Anti-Epidemic Products Export from China

Operation Manual

- The World Health Organization confirmed a **covid-19** pandemic
- China has not banned the export of masks and/or other Anti-Epidemic products, nor has there been any news or written notice from China Customs regarding the forbidden export of masks
- China Gov/Customs supervise the Anti-Epidemic products export by 2 different Categories

Surgical/Medical

Non-surgical/Medical

We will introduce the detailed requirement in below

Tips :
What are the applicable surgical /medical quality standard?

Surgical or medical	NON surgical or medical
YY/T0969-2013	EN-149
YY 0469-2011	EN-143
Gb 19083-2010	GB T32610
EN-14683	GB 2626-2006

3 Steps to confirm the qualification of **Surgical / Medical mask** (* and other Anti-Epidemic products) export

❑ Step 1 :Approved list

Please check if your supplier's name in the approved list

You can find the most updated Approved list on the website
<http://www.nmpa.gov.cn/WS04/CL2582/>

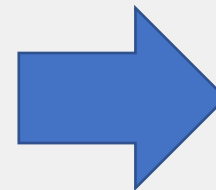

Approved list

Updated 6th of Apr

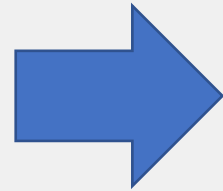

❑ Step 2 :Medical Device Production License

Please check If **the manufacturer** can provide
 Medical Device Production License

Step 3 :Medical Device Registration Certificate

Please check If the **trading company**
 (* or the manufacturer have rights to export cargo)
 can provide Medical Device Registration Certificate

If they can pass all the 3 steps check , your supplier is qualified to export the surgical /Medical mask (* and other Anti-Epidemic products)

P.S. They also need provide fully docs & declaration forms required for export

!!! PAY MORE ATTENTION to **NON-surgical/Medical mask**

(* and other Anti-Epidemic products) export

China Gov/Customs is applying stricter supervision on **NON-surgical/Medical** mask by the measures of 100% manual document examination and inspection.

It is to avoid some suppliers selling/exporting to overseas Non-surgical/Medical category products that are finally be used as Surgical/Medical usage in overseas.

We have collected the following guidelines from customs but as the rules continue to evolve. It is important to ask client to request shippers to send us docs and Photos of Product marking, labeling, packaging to our Operations team in advance.

!!! PAY MORE ATTENTION to NON-surgical/Medical mask

Product Test Report (CMA CNAS) and the Certificate of conformity

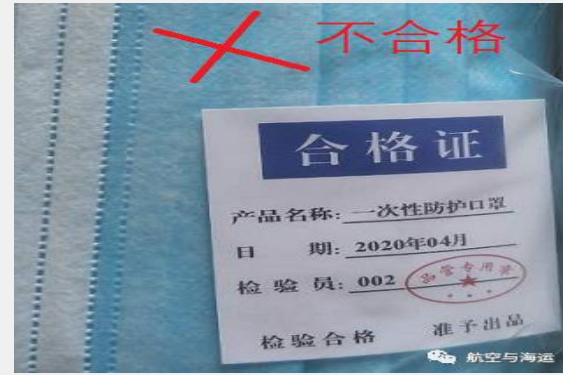

- ✓ The supplier must provide the **Test Report (CMA CNAS)**
- ✓ The supplier must provide the **Certification of Conformity** with company chop for testing, commodity name, quality standard, production date, Production batch, main components and period of validity
