Re: CBP Memorandum Regarding Exporting PPE's

Dear Valued Client,

CBP has provided guidance pertaining to the Presidential Memorandum and Temporary Final Rule that was published to ban the export of scarce or threatened personal protective equipment (PPE) materials that are to remain in the United States for use in responding to the spread of COVID-19, and to prevent domestic brokers, distributors and other intermediaries from diverting such materials overseas.

Scarce or threatened personal protective equipment (PPE) is defined as:

- N-95 Filtering Facepiece Respirators & Other Filtering Facepiece Respirators
- Elastomeric, air purifying respirators and appropriate particular filters/cartridges
- PPE surgical masks, gloves or surgical gloves
