Re: 100% Screening Mandate Requirement

Dear Valued Client,

The new Transportation Security Administration (TSA) screening requirements for shipments transported on all-cargo international aircraft will come into effect on June 30th, 2021. These new security provisions will require that all shipments transported on all-cargo international aircraft be screened to similar standards as cargo transported on passenger aircraft. Alternatively, shipments may be received from a TSA-regulated entity that has applied appropriate security controls and/or screened the cargo

For more information related to this new regulation, please refer to 49 CFR 1548, Docket No. TSA-2020-0001, or via this [link](#).

Should you need any further information regarding this new cargo screening requirement and/or pricing information, please contact your nearest JAS Forwarding Office.

Sincerely,

JAS Forwarding USA Inc.
