

CV

Faisal Ramadan

Web Designer / Graphic Designer / Webflow Designer

Short intro about my experience:

Current work: My current work, since 2017, is designing net stores, managing ecommerce work (orders, social advertising and other tasks relevant to online selling). Specialized in Creating Net stores (and websites) with custom made system using no code apps (Webflow, Airtable with extensions, Automation apps, Checkout system and several plugins. I can also use Shopify.

I can also make all relevant graphic work since I have been working a graphic designer since 2005 (Photoshop & Illustrator).

As for UXD Design, I am finishing my study soon at Noroff in UX design, I have now the knowledge to make complete UXD case studies (UX Research, Ideation, wireframing, testing and prototyping with knowledge about accessibility).
