

COMPETITION BUMPER PLATES

PRODUCT FEATURES

DEAD BOUNCE

High quality PU rubber coating allows for a consistent dead bounce, allowing the bumper plates to maintain their durability.

COLOR CODED PLATES

Plate colors will not fade over time, ensuring a professional look for your facility or gym. Vibrant colors allow lifters and coaches to monitor progress and quickly identify loads.

DURABILITY & WARRANTY

All Plates have a steel insert with a high quality PU rubber coating to protect plates over time. Plates have a two year warranty protecting against regular use of the product. All moldings create a great look that will not fade over time with regular use.
