Aspen Grove Montessori School (AGMS) - March Space Camp

Welcome to our AGMS March Space Camp! This year's camp will include various lessons and experiments related to astronomy. We will also be inviting a traveling planetarium to the school to inspire our students about space, rockets and space travel.

The universe fascinates young learners and during March Camp, students will learn that Astronomy is the study of everything in the universe beyond Earth's atmosphere, including objects we can see with our naked eyes, like the Sun, the Moon, the planets, and the stars. They will also come to understand the universe also includes objects we can only see with telescopes or other instruments, like faraway galaxies and tiny particles.

Lessons will be delivered by the qualified and professional teachers of AGMS.
