

## PAST PROJECT : V LINE WARRAGUL MAINTENANCE DEPOT

### CLIENT

- > Baw Baw Shire

### LOCATION

- > Warragul, Victoria

### ARCHITECT

- > D&C
- > Kubale Constructions

### VALUE

- > \$1.2m

### STATUS

- > Completed Aug 2015

### SUMMARY

- > This project for V Line in the town of Warragul was to erect two new maintenance sheds and the support buildings for the depot staff.

Works included the removal of contaminated soil, levelling of the site and the erection of two identical maintenance sheds. Each shed was approximately 320 sqm and they were built on concrete slabs.

Minimal offices were constructed from Atco relocatable buildings with an adjacent amenities block. The site was completed with perimeter cyclone fencing.

Valued at just over \$1.2m, this was a relatively simple project done in a short time frame.

### CONSTRUCTION TECHNIQUES EMPLOYED

- > Steel framed colour bond clad sheds
- > Atco portable building modules
