

## 03 How do I activate a patient?

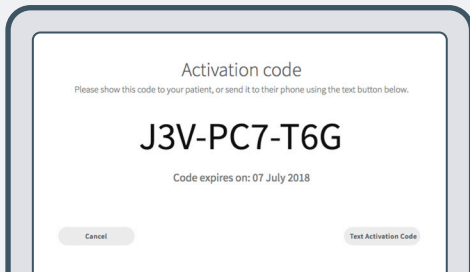

Ref: CORP-052-01

### Task: Activate a patient using an SMS

**Previous actions:** Login to the GDm-Health desktop app and create a patient record

#### Step 1

Once you have completed the **Create a patient** process, you will see the following screen.

#### Step 2

Click on the **Text activation code** button.

#### Step 3

The activation code is valid for 5 days.  
See **Quick Guide 09** for details of how to re-generate an activation code after this time.

#### Step 4

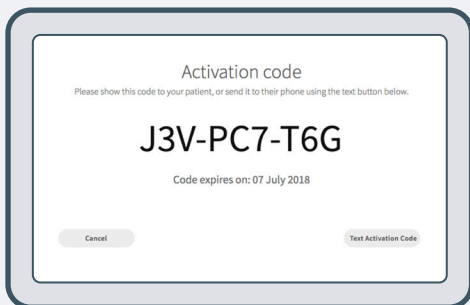

The patient will then be texted the code so they can enter the code into their app to use all of the GDm-Health features.

### Task: Activate a patient by contacting them directly

**Previous actions:** Login to the GDm-Health desktop app and create a patient record

#### Step 1

Once you have completed the **Create a patient** process, you will see the following screen.

#### Step 2

Take note of the activation code, which is shown below.

#### Step 3

Contact the patient and inform them of the code.

#### Step 4

Click on the **Done** button.
