

EarthEcho Project Planning Canvas

Metrics/Progress Monitoring

How will you measure progress? What are important milestones? What assessment tools?

Reflection Tools

How will students reflect during this process?

Potential or Desired Products?

What will the outputs be?

Activities

What do you want students to DO?

Technology

How can you incorporate technology intentionally?

Learning Objectives

What do you want your students to take away from the project?

Audience

Who are you engaging with the project?
What are their core interests?

Values/Beliefs

What values will the audience bring to the project that may provide opportunities or challenges?
