**Malca-Amit**  
Singapore

Since our founding more than thirty years ago, Malca-Amit has built a global business based on what make us up – our core values of Trust, Confidentiality, Service and Dedication. These words guide our code of conduct and core business philosophy.

From a family-owned company catering to a very closed circle in the diamond and jewellery industry, to being today's market leader in precious commodities logistics, we now enter into the next phase. The same qualities our clients have come to expect from us will continue to be evident in our new suite of wealth management and physical assets solutions.

We aim to solve complex problems of using expert knowledge and technical know-how. We tackle challenges, chart new territory and deliver results. In the process, we never lose sight of our commitment to exceed expectations, honour our commitments and stand up for our principles. As our valued client, you will always be assured of the highest level of confidentiality and security. Plus, with our flexible and holistic approach, your requirements and expectations will be fulfilled at every stage.

Our team of professionals will collect your assets virtually anywhere around the world, get it insured and safely delivered to our secured facilities in Singapore. You will be, at all times, in full control and view of your property. We will also act on your behalf if and when the need arises. With our many modules of secured storage units, you will be assured of a customised solution – ideal size and pricing – best suited for your needs.

I ask that you not only take my word for it. Instead, I would like to invite you to experience our services for yourself. You may just be pleasantly surprised how well attuned we are to meeting your needs and aspirations. We look forward to forging a valued and long-standing relationship with you.
