CHAT BOX CONTENT & QUESTIONS

WSMA has engaged automated live captions for this meeting which will allow attendees to enable automated captions in your language. Captioning helps people with hearing loss or deafness and can also be helpful for people for whom English is not their first language. Captions also support people with normal hearing who may be participating from a noisy space.

From WD to Everyone: Great to see you have incorporated sustainability and waste reduction into your business model

From SM to Everyone: I represent a WSMA sponsored Food Incubation project (Viva La Cocina) working with food service entrepreneurs and small businesses interested in improving business practices. In particular, we are focused on creating accessible commercial kitchen space in Tacoma's Eastside and South End. For additional information please contact: viavalacocina@gmail.com.

From WD: @ L&I How often do you deal with Accessibility claims and/or implement design standards to help make work places more accessible for the disabled? From Rick Goggins, L&I Ergonomics: @ William - we defer to the pros who do ADA consultations - check the Northwest ADA Center website for their resources.

THANK YOU to our speakers: Erin Nutter and Rick Goggins from the Washington State Department of Labor & Industries Division of Occupational Safety and Health, and Ming-Ming Tung-Edelman, Founder & Executive Director of Refugee Artisan Initiative.

From IM: great info. I'm assuming there are Spanish speaking reps for the L&I consultations? thanks!
From Erin Nutter to Everyone: absolutely!
