

Case Study: Majilite Corporation

Summary: Majilite Corporation of Dracut, Massachusetts, is a manufacturing facility in eastern MA with a workforce of 100+ end users.

Challenges: The client wanted to upgrade to Office365. They wanted to maintain their current Sophos Cloud & Barracuda to the Office 365 environment.

Solution: WCA performed an IT assessment and then provided a complete proposal to support the Office 365 migration including their existing user mailboxes and over 222 GB of data. The project also planned for the configuration of MailMarshal, Sophos Cloud & Barracuda in the new OFFICE 365 environment.

Benefits: The solution implemented at Majilite Corporation was with an infrastructure designed and configured based upon best practices while meeting the customer's performance and budget requirements. The details of these benefits are as follows:

- Office 365 migration (including build/provision new tenant, migrate user mailboxes/data)
- Configure MailMarshal to Office 365
- Configure Barracuda to Office 365
- Configure Sophos Cloud to Office 365

Client Testimonial: "We are very happy with the service and end results of our company migration to Office 365. The WCA engineer was very helpful, knowledgeable and very eager to start and complete the project. We have used WCA for various projects and have always been happy with their service and expertise in the field."
