

Case Study: Hope Global

Summary: Hope Global founded in 1883 in Pawtucket RI has experienced explosive growth over 130+ years. Now a global corporation with over 1750+ employees manufactures customized and innovative sewn products in many different markets including automotive, industrial, apparel industries as well as for the US armed forces.

Challenges: The client had an aging data storage infrastructure and requested a solution to upgrade their VDI environment. Client must have minimal interruption to their daily business.

Solution: WCA performed an IT assessment and then provided a complete program for the entire project. Project included all product to be delivered/installed/configured for their DC.

Benefits: The solution implemented at Hope Global with an infrastructure designed and configured based upon best practices while meeting the customer's performance and budget requirements. The details of these benefits are as follows

-
- Deliver/Install new Nimble Storage
- Migrate vSphere to the new SAN
- Migrate existing VM's to new Cluster
- Knowledge transfer to Hope Global team
