

Case Study: Greenfield Housing Authority - NAS/BaaS Project

Summary: Greenfield Housing Authority, located in the charming western Massachusetts town of Greenfield wanted to upgrade their existing backup solution to a Synology NAS and a Green Cloud BaaS cloud-based solution.

Challenges: The client was outgrowing their current backup solution and desired to move their backup solution to the Cloud.

Solution: WCA performed an IT assessment and then provided a complete proposal for desired solution within the customers parameters.

Benefits: WCA's solution implemented at Greenfield Housing Authority included the following details:

- Proposed, installed and configured Synology NAS storage appliance
- Created Veeam Windows Server 2019 VM on current VSphere
- Create backup job to backup existing data to Synology NAS
- Setup Green Cloud BaaS storage
- Create backup from NAS to Green Cloud

Project Completion: WCA was successful in designing, installing and delivering the complete design solution of the clients' request.
