

Case Study: Lee Public Schools

Lee Public Schools

Summary: Lee Public Schools requested WCA to help with the addition of 7 new Extreme AP's to improve the High Schools connectivity.

Challenges: Client wanted the project to have minimal to zero impact on the daily wireless connectivity. WCA engineer complied to add the new Extreme AP's with little to no impact on the school's productivity.

Solution: WCA designed and coordinated a schedule based upon the client's timeline to deliver, mount & configure the 7 Extreme AP's in the designated locations.

Benefits: The project delivered all details of the proposed SOW on the scheduled date requested by the client. The details and benefits of this project are as follows:

- Inventory, Label, Mount and Configure 7 new Extreme 305C's Access Points into client's existing Extreme Cloud IQ environment
- Adjust reapply configuration as needed while testing.
- Complete final test
- Share Knowledge Transfer

Client Testimonial: "A+ all the way, Excellent service as always." - *Greg Breggetti, Lee Public Schools*

Industry

Lee, MA
Education - K - 12
