1 Identification of the substance/preparation and of the company/undertaking

Trade name: ***Linelube Engine Oil FMC 5W30***

Relevant identified uses of the substance or mixture and uses advised against:

Use of the substance/mixture: Engine oil

Use advised against: For specific application information consult Technical Data Sheet

Supplier:

Online Lubricants Ltd.

Unit 20, The io Centre, Barking, London IG11 0DR

UK Tel. +44 (0) 208 507 0123

In case of emergency: +44 (0) 208 507 0123

2 Hazards identification

2.1 Classification of the substance or mixture: CLP: Not classified

2.2 Label elements

Signal Word: Not classified

Hazard statements - Precautionary statements

2.3 Other hazards

3 Composition / Information on ingredients

3.2 Mixtures –

Phosphorodithioic acid, O,O-di-C1-14-alkyl esters, zinc salts

CAS Number:	68649-42-3
EC Number:	272-028-3
REACH Registration Number:	Not Available
Concentration:	<0.3 %
H Statements:	H319, H400, H412
Symbols:	
Categories:	Eye Irrit. 2

Benzenamine, N-phenyl-, reaction products with styrene and 2,4,4-trimethylpentene

CAS Number:	68921-45-9
EC Number:	272-940-1
REACH Registration Number:	Not Available
Concentration:	<0.1 %
H Statements:	H411
Symbols:	
Categories:

Benzenepropanoic acid, 3,5-bis(1,1-dimethylethyl)-4-hydroxy-,C7-9-branched alkyl esters

CAS Number:	125643-61-0
EC Number:	406-040-9
REACH Registration Number:	Not Available
Concentration:	<0.2 %
H Statements:	H413
Symbols:	
Categories:	

Lubricating oils (petroleum), C20-50, hydrotreated neutral oil-based; Base oil – unspecified

CAS Number:	72623-87-1
EC Number:	276-738-4
REACH Registration Number:	01-2119474889-13-xxxx
Concentration:	<80.0 %
H Statements:	H304
Symbols:	
Categories:	Asp. Tox. 1

4 First-aid measures

4.1 Description of first aid measures:

Inhalation:

If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

Contact with eyes:

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Eyelids should be held away from the eyeball to ensure thorough rinsing. Check for and remove any contact lenses (if easy to do so). Get medical attention.

Contact with skin:

Wash skin thoroughly with soap and water or use recognised skin cleanser. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention if symptoms occur.

Ingestion:

Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

4.2 Most important symptoms and effects, both acute and delayed

See Section 11 for more detailed information on health effects and symptoms.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment should be symptomatic and directed to relieving any effects.

5 Fire Fighting Measures

5.1 Extinguishing media

Extinguish with foam, carbon dioxide, dry powder or water fog. Unsuitable extinguishing media: Do not use water jet as an extinguisher, as this will spread the fire.

5.2 Special hazards arising from the substance or mixture

If heated or in cases of fire, pressure in a vessel will increase and container may burst.

Combustion products may include: carbon oxides (CO, CO₂) (carbon monoxide, carbon dioxide), metal oxide/ oxides, phosphorous oxides and sulphur oxides (SO, SO₂, etc.)

5.3 Advice for firefighters

Promptly isolate and secure the scene, remove all unnecessary and untrained persons from the vicinity if

This safety data sheet serves to complement but not to replace the technical product sheets. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. It is understood by the user that any use of the product for purposes other than those for which it was designed entails potential risk. The information given herein in no way dispenses the user from knowing and applying all provisions regulating his activity. The user bears sole liability for the precautions required when using the product. The regulatory texts indicated herein are intended to aid the user to fulfil his obligations. This list is not to be considered complete and exhaustive. It is the user's responsibility to ensure that he is subject to no other obligations than those mentioned.

there is a fire.

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European Standard EN 469 will provide a basic level of protection for chemical incidents.

6 Accidental Release Measures

Spillage causes slippery surface

6.1 Personal precautions, protective equipment and emergency procedures

- Stop any leak if it is safe to do so.
- Absorb with sand or other inert absorbant. Collect in containers and seal securely.
- Adopt best manual handling considerations when handling, carrying and dispensing.
- Appropriate protective equipment must be worn when handling a spill of this material. See SECTION 8, Exposure Controls/Personal Protection, for recommendations. If exposed to material during clean-up operations, see SECTION 4, First Aid Measures, for actions to follow.

6.2 Environmental precautions

Do not allow product to enter drains. Prevent further spillage if safe. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and material for containment and cleaning up

- Stop any leak if it is safe to do so.
- Absorb into dry earth or sand. Transfer to a closable, labelled salvage container for disposal by an appropriate method.
- Dispose of in compliance with all local and national regulations.

6.4 Reference to other sections

- See Section 1 for emergency contact information.
- See Section 5 for firefighting measures.
- See Section 8 for information on appropriate personal protective equipment.
- See Section 12 for environmental precautions.
- See Section 13 for additional waste treatment information.

7 Handling and Storage

7.1 Precautions for safe handling - Use appropriate personal protective equipment. - Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Wash thoroughly after handling. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations.

Keep in a cool, dry, well ventilated area. Keep containers tightly closed. Store in correctly labelled containers.

7.3 Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

8 Exposure controls/personal protection

8.1 Control parameters

Substances

Chemical Name	WEL (short term)	WEL (long term)
Mineral Oil	•	5mg/m ³

Page 4 of 6

If this product contains ingredients with exposure limits, personal and/or workplace atmosphere monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

8.2 Exposure controls

Gloves

Goggles

Engineering Controls:

Appropriate Engineering Control:

- All activities involving chemicals should be assessed for their risks to health, to ensure exposures are adequately controlled.
- Personal protective equipment should conform to appropriate standards, be suitable for use, be kept in good condition and properly maintained.
- No special requirements under ordinary conditions of use and with adequate ventilation.

Eye Protection:

If contact is likely, safety glasses are recommended.

Hand Protection:

- As specific work environmental and material handling practices vary, safety procedures should be developed for each intended application.
- The correct choice of protective gloves depends upon the chemicals being handled and the conditions of work and use.
- Recommended: Nitrile or other suitable glove.
- Breakthrough time represents how long a glove can be expected to provide effective permeation resistance. Always consult with your glove supplier for up-to-date technical information on breakthrough.

Skin and Body Protection

Wear appropriate clothing as protection against splashing. In accordance with good industrial hygiene practices, precautions should be taken to avoid skin contact.

Hygiene Measures:

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Respiratory Protection :

No Special requirements under ordinary conditions of use and with adequate ventilation

9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

- Appearance: Amber
- Odour: Characteristic.
- Density: 0.85 at 15°C
- Viscosity (kinematic): 57cSt at 40°C
- Viscosity (kinematic): 10cSt at 100°C
- Freezing point/Range: No data available.
- Boiling Point/Range: No data available
- Flashpoint: >190°C
- Oxidising Properties: No information available
- Autoignition Temperature: No information available

This safety data sheet serves to complement but not to replace the technical product sheets. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. It is understood by the user that any use of the product for purposes other than those for which it was designed entails potential risk. The information given herein in no way dispenses the user from knowing and applying all provisions regulating his activity. The user bears sole liability for the precautions required when using the product. The regulatory texts indicated herein are intended to aid the user to fulfil his obligations. This list is not to be considered complete and exhaustive. It is the user's responsibility to ensure that he is subject to no other obligations than those mentioned.

Page 5 of 6

9.2 Other information

The figures in this section are for guidance only please always use them in conjunction with the technical data sheet.

10 Stability and Reactivity

10.1 Reactivity

No specific test data available for this product. Refer to Conditions to avoid and Incompatible materials for additional information.

10.2 Chemical stability: Considered stable under normal conditions

10.3 Possibility of hazardous reactions:

- None under normal processing.
- Hazardous polymerisation does not occur.

10.4 Conditions to avoid: Avoid heat, flames and other sources of ignition.

10.5 Incompatible materials: Reactive or incompatible with the following materials: oxidizing materials.

10.6 Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced

11 Toxicological Information

11.1 Information on toxicological effects

Potential acute health effects:

- Inhalation may cause irritation to the respiratory tract.
- Ingestion: May cause nausea and diarrhoea.
- Skin contact: Defatting to the skin. May cause skin dryness and irritation.
- Eye contact: No known significant effects or critical hazards.
- No other specific data and information available.

Potential chronic health effect:

General: USED ENGINE OILS:

Combustion products resulting from the operation of internal combustion engines contaminate engine oils during use. Used engine oil may contain hazardous components which have the potential to cause skin cancer. Frequent or prolonged contact with all types and makes of used engine oil must therefore be avoided and a high standard of personal hygiene maintained.

12 Ecological Information

12.1 Toxicity

Not classified as dangerous

12.2 Persistence and degradability

The product is not readily biodegradable.

12.3 Bioaccumulative potential

The product has limited potential for bioaccumulation. The product is not expected to bioaccumulate through food chains in the environment.

12.4 Mobility in soil

- Spillages may penetrate the soil causing ground water contamination.
- immiscible with water

12.5 Results of PBT and vPvB assessment:

PBT: Not applicable.

vPvB: Not applicable.

12.6 Other adverse effects:

- Spillages may form an oil layer on water surfaces causing physical damage to organisms. Oxygen transfer

Material Safety Data Sheet

Page 6 of 6

- may also be impaired.
- Toxic to sewage works organisms

13 Disposal Considerations

13.1 Waste treatment methods

Dispose of in compliance with all local and national regulations.

13.2 Classification:

This material and its containers must be disposed of as hazardous waste. Dispose of waste via a licensed waste disposal contractor.

14 Transport Information

14.1 UN number

UN No.: Not regulated.

14.2 UN proper shipping name

Proper Shipping Name: Not applicable.

14.3 Transport hazard class(es)

Hazard Class: Not applicable.

14.4 Packing group

Packing Group: Not applicable.

14.5 Environmental hazards

Not classified.

14.6 Special precautions for user

Not available.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not available.

15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- Regulation (EC) No 1907/2006 of the European Parliament and the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).
- Regulation (EC) No 1272/2008 of the European Parliament and the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).

15.2 Chemical safety assessment

A chemical safety assessment (CSA) for this product has not yet been completed

16 Other Information

Text not given with phrase codes where they are used elsewhere in this safety data sheet:

- H304: May be fatal if swallowed and enters airways.
- H319: Causes serious eye irritation.
- H400: Very toxic to aquatic life.
- H411: Toxic to aquatic life with long lasting effects.
- H412: Harmful to aquatic life with long lasting effects.
- H413: May cause long lasting harmful effects to aquatic life.
