### VESTRIS' VETTES BUILT 1960 CORVETTE RESTO-MOD FOR SALE AT CORVETTE MIKE'S

**PAOLI, PENNSYLVANIA, JUNE 15, 2019**– Vestris' Vettes built this 1960 Corvette for a customer in San Francisco a few years back, and with the permission of the owner Vestris' exhibited the car at Barrett Jackson, Scottsdale and The Pebble Beach Concours d' Elegance.

*Caption: The '60 Corvette, such an iconic resto-mod*

Roman red paint w/red interior, classic wide whitewalls, original hubcaps and original fuel injection badging makes this car the epitome of; "That great retro look..." Add to that the LS2, Tremec 6 speed (a first at the time of the build) and Jim Meyer Racing coilover suspension front and rear, completes the mantra; "...with today's technology."

An attendee at Pebble Beach indicated; "this is the nicest Corvette here." High praise at that venue. Take note of the wheel and tire swap in the pics below. Same car but with a more aggressive look.

Some lucky individual will end up purchasing this beautiful performance classic by visiting Corvette Mike; <https://corvettemike.com/used-corvettes-for-sale/1960-roman-red-corvette-resto-mod-convertible/>

Vestris' Vettes, [www.vestrisvettes.com](http://www.vestrisvettes.com), builds resto-mod Corvettes, 1953 – 1975 delivering on the promise of a unique classic car that can be driven anytime, anywhere. "That great retro looks with today's technology."
