

# You... but supercharged

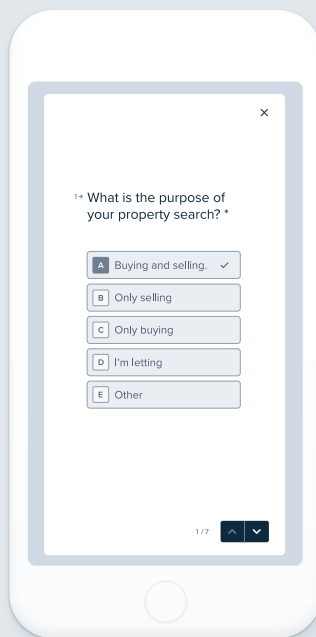

Engage by Adfenix provides high quality leads straight to your inbox, by turning anonymous web traffic on your brokerage website into buyers and sellers. Which means the leads are only shared with you, and not your competitors.

This added insight means you can identify where your new customer is on their property journey, and what they are looking for from you.

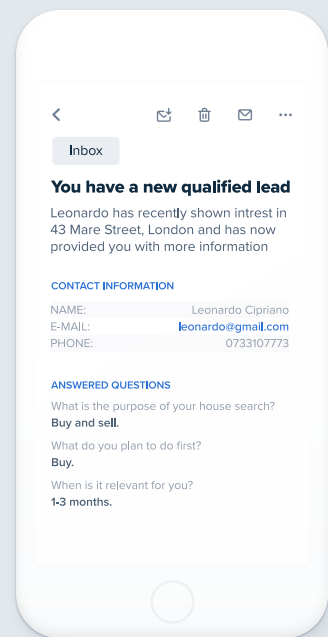

1

The customer chooses their reason for visiting your listing

2

They then provide more details for further lead qualification

3

The lead details are immediately sent to you for follow up

## Win more business

Hot leads + insight creates great conversations

## Act fast

Call or message back within 1.5 hours

## Contact 100%

Respond to all leads, prioritising those who give more detail

## See hidden opportunities

A Sold Alert request may be your next seller researching the market
