

Dual Credit Certificate

HVAC (Heating, Ventilation & Air Conditioning)

CONTINUUM

Florence-Darlington Technical College's Essentials of Heating, Ventilation, and Air Conditioning certificate is a program that will provide students with the basic knowledge of installing and maintaining heating, air conditioning, and refrigeration equipment.

According to the U.S. Department of Labor, HVAC job opportunities are expected to grow 15% between 2016 and 2026. The national average annual salary for a job in HVAC is just over \$47,000.
