# Birth and Death Cycles of Educational Innovations

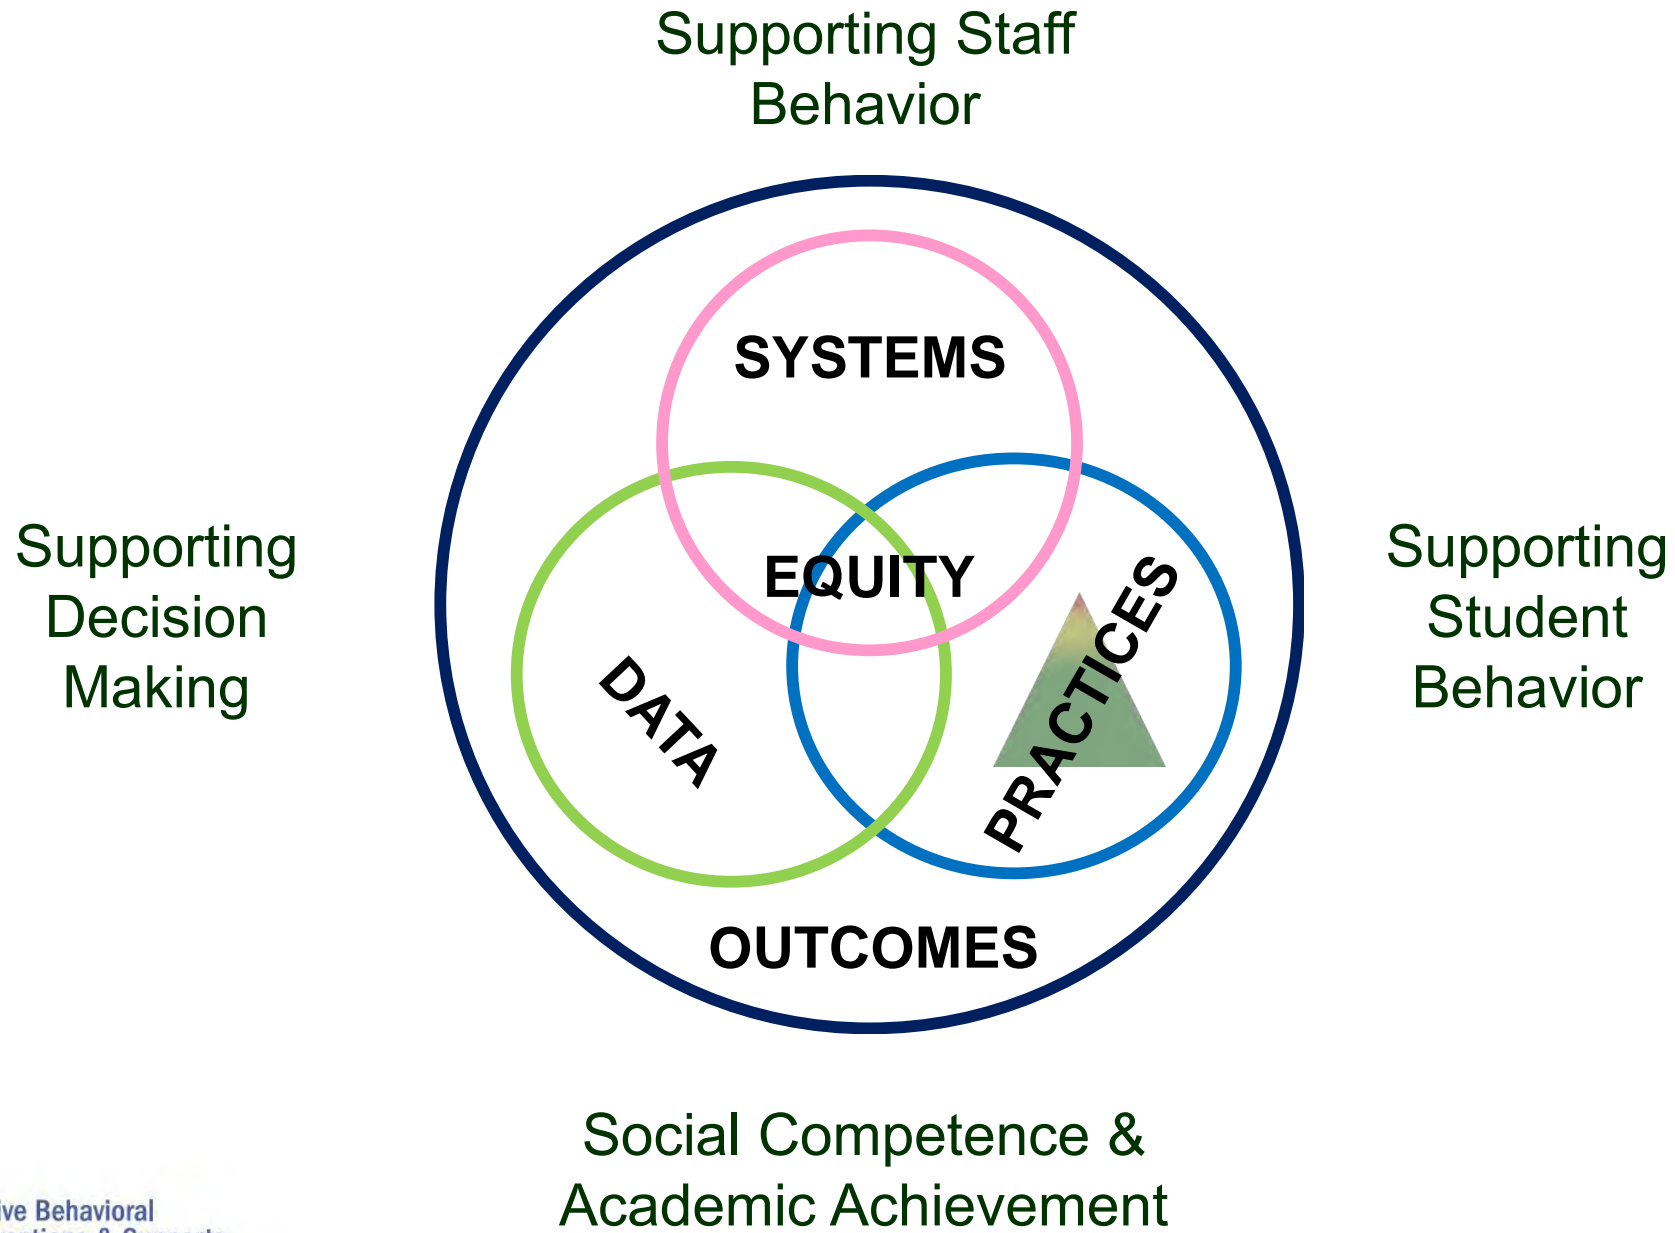

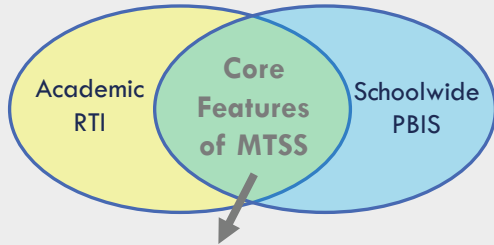

# How is PBIS **Continually Relevant** in a constantly changing educational landscape?

PBIS organizes your school to achieve its **outcomes** through understanding its **data**, providing a continuum of **practices**, supporting staff through **systems**, and prioritizing **equity**.

# PBIS is the social-emotional-behavioral Multi-Tiered System of Supports (MTSS) Framework

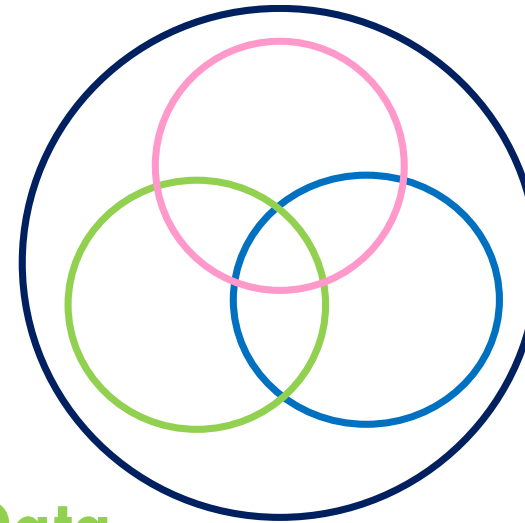

1. Team based leadership and coordination
2. Evaluation of implementation fidelity
3. Three-Tiered Continuum of evidence-based practices
4. Continuous data-based progress monitoring and decision-making
5. Comprehensive universal screening (for systemic and early access)
6. On-going professional development including coaching with local content expertise

Midwest PBIS Network 10-20-21. Adapted from: McIntosh, K. & Goodman, S. (2016). Integrated Multi-Tiered Systems of Support: Blending RTI and PBIS. New York: Guilford Press.

## Systems

1. Team-based leadership and coordination
6. Professional development, coaching, and content expertise

## Data

2. Evaluation of fidelity
4. Progress monitoring
5. Universal screening

## Practices

3. Three-tiered continuum of culturally relevant evidence-based interventions

# Guiding Principles

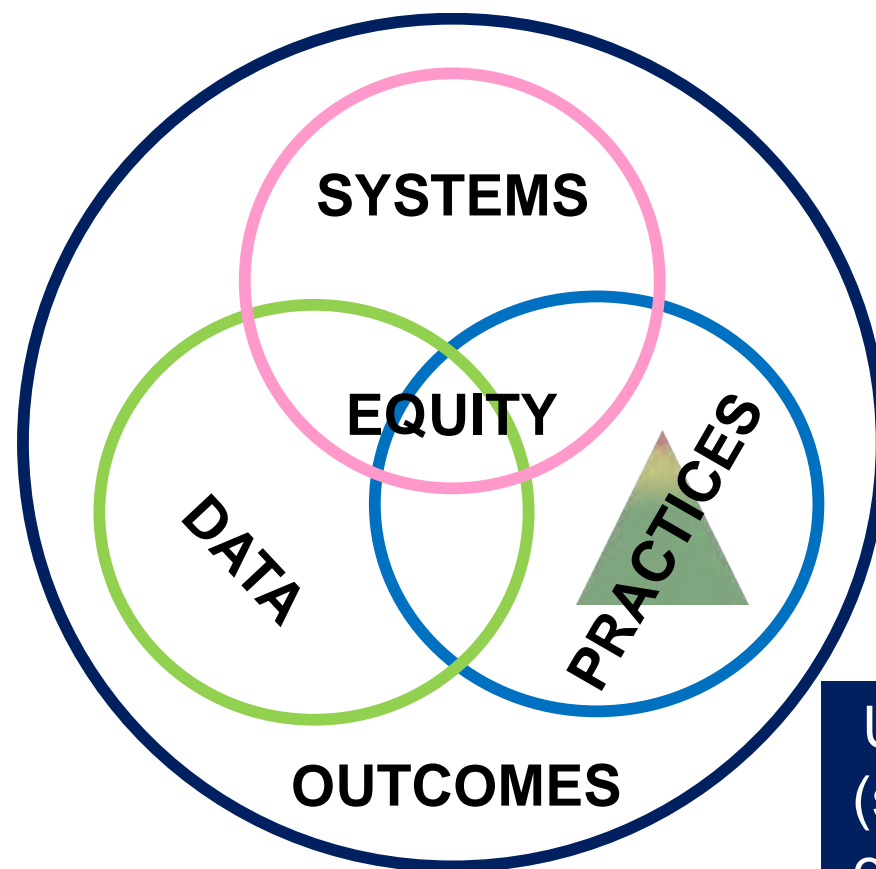

MTSS is for *all* students, families, and educators

Make student **growth** and **benefit** central to all decisions

Continue to invest in **systems** to support high-fidelity implementation across time

Prioritize **equity**

Integrate, align, and connect practices

Student **outcomes** that reflect equitable learning opportunities must be the ultimate criteria for all decisions

Implement a small number of effective, culturally-relevant **practices** well

Use **data** to inform all decisions (screening, progress monitoring, equitable outcomes, and fidelity)

Use the MTSS framework to differentiate supports for students, and monitor to ensure equitable outcomes are observed

## Improved Student Outcomes

academic performance

*(Horner et al., 2009)*

social-emotional competence

## Data Learning Objectives

1. Our leadership team reviews accurate and up to date behavioral data monthly (1.12)
2. Our leadership team develops data-based action plans to address behavioral needs, and monitors each plan monthly. (1.13)
3. Our leadership team regularly assesses fidelity of teachers' discipline practices and of our PBIS implementation (1.14)
4. At least annually, our leadership team evaluates overall progress, develops an action plan, and reports out to stakeholders. (1.15)

# Understanding Data

## Evaluation Purposes

- **Summative** provides overall to inform decisions about whether to continue, abandon, or modify
- **Formative** reviews interventions as they are implemented with intent on improving outcomes
- **Accountability** reflects adherence to procedures, policies or practices

## Levels of Data Collection

- **Universal Screening** identifies students who are not making progress at expected rates
- **Diagnostic Assessment** determines what students can and cannot do across domains
- **Progress Monitoring** determines if interventions are producing desired effects

*Understanding the **why** and **for what purpose** data are being collected is critical*

## PBIS District Systems Fidelity Inventory (DSFI) PILOT VERSION v0.2

The purpose of the District Systems Fidelity Inventory (DSFI) is to guide District Leadership Teams in the assessment, development, and execution of action plans that promote the capacity for sustainable, culturally and contextually relevant, and high-fidelity implementation of multi-tiered social, emotional, and behavioral systems of support and practices. The DSFI and process have been designed to serve as a guide for initial action planning, progress monitoring and annual evaluation of fidelity of implementation and impact.

# Are your data useful? For what?

Data source(s) should:

- 1) Help you to identify needs in relation to established goals; **(DEFINE)**
- 2) Help you to understand the barriers to reaching goals; **(ANALYZE)**
- 3) Provide sufficient info to select, match, and deliver services/supports; **(IMPLEMENT)**
- 4) and contribute to evaluating the effectiveness of services and supports provided. **(EVALUATE)**

# Questions for Consideration

1. What data are needed to assist us in making meaningful and efficient decisions?
2. Are there additional data that could help us? If yes, what type?
3. What will we need in order to begin using data regularly for decision-making during team meetings?

# Consider the data-based decision-making capacity of your system...

- Do your data-analysts have full access to the data?
- Within 5-10 minutes of the start of the meeting, are your teams reviewing up-to-date precision-problem statements developed by your data-analyst?
- Are your teams able to develop a complete action plan to address the problem (10 min or less process per problem)?

*If these components are not in place, what are your Tier 1 teams doing during meetings instead?!*

# Lets Revisit the Poll Results and Action Plan

## Data Learning Objectives

1. Our leadership team reviews accurate and up to date behavioral data monthly (1.12)
2. Our leadership team develops data-based action plans to address behavioral needs, and monitors each plan monthly. (1.13)
3. Our leadership team regularly assesses fidelity of teachers' discipline practices and of our PBIS implementation (1.14)
4. At least annually, our leadership team evaluates overall progress, develops an action plan, and reports out to stakeholders. (1.15)
