

PROCUREMENT POLICY

Policy Number:	2.2.4
Approved by	Council
Date Approved/Effective:	17 December 2019
Date of Next Review:	1 October 2020
Related Policies:	Risk Management Fraud Control Policy Best Value and Competitive Neutrality Environmental Sustainability Conflict of Interest Policy Fleet Purchasing
Applicable to Unit(s):	Whole Organisation
Responsible Officer:	Manager Corporate Finance
Statutory Reference:	<i>Local Government Act 1989</i>

OVERVIEW

To provide guidance to the Council to allow consistency and control over procurement activities.

THE POLICY

1. Principles

1.1 Policy Objective

The objective of this Policy is to:

- facilitate compliance with relevant legislative requirements
- provide policy and guidance to the Council to allow consistency and control over Procurement activities;
- demonstrate accountability to rate payers;
- provide guidance on ethical behaviour in public sector purchasing;
- demonstrate the application of elements of best practice in purchasing; and
- increase the probability of obtaining the right outcome when purchasing goods and services.

1.2 Associated Policies, Guidelines and Procedures

This Policy forms part of Council's overall procurement policies and guidelines and should be read in conjunction with the following:

- Wellington Shire Council (WSC) Tenders, Expressions of Interest and Contracts System (TECS)
- Best Practice Guide for Tendering and Contract Management (Victorian Civil Construction Industry)
- Victorian Local Government Best Practice Procurement Guidelines (Department of Planning & Community Development)
- Social Procurement: A Guide for Victorian Local Government
- *Trade Practices Act 1974*

- *Security of Payments Act 1999*
- *Local Government Act 1989*
- *Local Government (Planning and Reporting) Regulations 2014*
- WSC Risk Management Policy
- OH&S Management System, section 4
- WSC Best Value and Competitive Neutrality Policy
- WSC Fraud Control Policy
- WSC Instrument of Sub-Delegation by CEO to staff
- WSC Environmental Policy
- WSC Fleet Purchasing Policy
- WSC Fleet Management Guidelines
- WSC Shire Code of Conduct
- WSC Councillor Code of Conduct
- WSC Cashiers Manual
- WSC Corporate Credit Card Guidelines
- WSC Conflict of Interest

1.3 Background

Wellington Shire Council recognises that developing a procurement strategy and adopting appropriate best practice contracting and procurement principles, policies, processes and procedures for all goods, services and works by Council, will enhance achievement of council objectives such as sustainable and socially responsible procurement; bottom-line cost savings, supporting local economies; achieving innovation; and better services for communities.

The elements of best practice applicable to local government Procurement incorporate:

- broad principles covering ethics, value for money, open and fair competition, risk management, probity and transparency, responsibilities and accountabilities;
- guidelines giving effect to those principles;
- a system of delegations (i.e. the authorisation of officers to approve and undertake a range of functions in the Procurement process);
- procurement processes, with appropriate procedures covering minor simple Procurement to high value complex Procurement.

Council's contracting, purchasing and contract management activities endeavour to:

- support the Council's corporate strategies, aims and objectives including, but not limited to those related to sustainability, protection of the environment, and corporate social responsibility;
- span the whole life cycle of an acquisition from initial concept to the end of the useful life of an asset, including its disposal, or the end of a service contract;
- achieve value for money and quality in the acquisition of goods, services and works by the Council;
- demonstrate that public money has been well spent;
- provide a robust and transparent audit trail which ensures that procurement objectives are

- delivered on time, within cost constraints and that the needs of end users are fully met;
- are conducted, and are seen to be conducted, in an impartial, fair and ethical manner;
- seek continual improvement including the embrace of innovative and technological initiatives such as electronic tendering processes to reduce activity cost; and
- generate and support business in the local community.

1.4 Scope

This Procurement Policy is made under Section 186A of the *Local Government Act 1989* (the Act).

The Act is the key legislative framework that regulates the process of all local government procurement in Victoria. Section 186 of the Act requires Council to prepare, approve and comply with a Procurement Policy encompassing the principles, processes and procedures applied to all purchases of goods, services and works by the Council.

This Policy applies to all contracting and procurement activities at Council and is binding upon Councillors, Council Officers and temporary employees, contractors and consultants while engaged by the Council.

The Act and this Procurement Policy are the primary reference points for how all procurement will be undertaken.

1.5 Purchase Order Exemptions

Purchases not requiring a purchase order are listed in Appendix A. This is owing to the nature of the purchases.

1.6 Treatment of GST

All monetary values stated in this policy include GST except where specifically stated otherwise.

1.7 Definitions and Abbreviations

Term	Definition
The Act	<i>Local Government Act 1989.</i>
Category Management	A 'Category' is an area of spend determined by known market boundaries separating different products, services or industries. Category management recognises that suppliers within a certain market are likely to have similarities which enable a tailored approach to procurement.
Commercial in Confidence	i.e. prices, discounts, rebates, profits, methodologies and process information, which if released may prejudice the business dealings of an organisation.
Contract Management	The process that ensures both parties to a contract fully meet their respective obligations as efficiently and effectively as possible, in order to deliver the business and operational objectives required from the contract and in particular, to provide value for money.
Council Staff	Includes full time and part-time council officers, and temporary employees, contractors and consultants while

	engaged by the Council.
Local suppliers	Located within Wellington Shire, then preference for Gippsland, Victoria or Australia (as opposed to inter-state or international suppliers)
Probity	The dictionary definition of probity refers to uprightness, honesty, proper and ethical conduct and propriety in dealings. Within Local Government, the word "probity" is often used in a general sense to mean "good process." A Procurement process that conforms to the expected standards of probity is one in which clear procedures that are consistent with the Council's policies and legislation are established, understood and followed throughout the procurement process. These procedures need to consider the legitimate interests of suppliers and ensure that all potential suppliers are treated equitably.
Standing Offer Arrangements (SOA)	<i>Also known as Panel of Suppliers or Schedule of Rates agreements.</i> A contract that sets out rates for goods and services which are available for the term of the agreement. However, no commitment is made under the agreement to purchase a specified value or quantity of goods or services.
Procurement	Procurement is the whole process of acquisition of external goods, services and works. This process spans the whole life cycle from initial concept through to the end of the useful life of an asset (including disposal) or the end of a service contract.
e-Procurement	e-Procurement is integral to the overall development of procurement processes and involves the use of an electronic system to acquire and pay for supplies, services and works.
Corporate Social Responsibility (CSR)	Corporate Social Responsibility (CSR) is about taking positive action to demonstrate the Council's commitment to the local community and environment on which it impacts.
Sustainability	Activities that meet the needs of the present without compromising the ability of future generations to meet their needs.
Social Procurement	Social Procurement uses Procurement processes and purchasing power to generate positive social outcomes in addition to the delivery of efficient goods, services and works.
Quotation	An offer to sell goods at a stated price and under specified conditions
Tender Process	The process of inviting parties to submit a quotation or tender by public advertisement, followed by evaluation of submissions and selection of a successful bidder or tenderer.
Expression of Interest (EOI)	An invitation to submit an EOI for the provision of the Goods and/or Services generally set out in the overview of requirements contained in the document. This invitation is not an offer or a contract.

Value for Money	<p>Value for Money in Procurement is about selecting the supply of goods, services and works taking into account both cost and non-cost factors including:</p> <ul style="list-style-type: none"> • contribution to the advancement of the Council's priorities; • non-cost factors such as fitness for purpose, quality, service and support; and • cost-related factors including whole-of-life costs and transaction costs associated with acquiring, using, holding, maintaining and disposing of the goods, services or works.
-----------------	--

2 Effective Legislative and Policy Compliance and Control

2.1 Ethics and Probity

2.1.1 Requirement

The Council's procurement activities shall be performed with unquestionable integrity and in a manner able to withstand the closest possible scrutiny.

2.1.2 Conduct of Councillors and Council Staff

2.1.2.1 General

Councillors and Council Staff shall at all times conduct themselves in ways that are, and are seen to be, ethical and of the highest integrity and *will*:

- comply with Council's policies, guidelines, procedures and applicable legislation;
- comply with Council's Codes of Conduct (Staff and Councillors), in particular relating to Conflict of Interest provisions
- treat potential and existing suppliers with equality and fairness;
- not seek or receive personal gain;
- maintain confidentiality of matters deemed to be Commercial in Confidence; such as contract prices and other sensitive information;
- present the highest standards of professionalism and probity;
- deal with suppliers in an honest and impartial manner that does not allow conflicts of interest;
- provide all suppliers and tenderers with the same information and equal opportunity; and
- be able to account for all decisions and provide feedback on them.
- maintain fair, equitable and non-discriminatory procedures for addressing complaints and concerns raised by supplies or members of the community regarding Council's procurement activities, and
- report matters if they are concerned that improper conduct is being undertaken, this includes
 - Corrupt conduct
 - A substantial mismanagement of public resources
 - A substantial risk to public health or safety; and
 - A substantial risk to the environment

Council Staff responsible for managing or supervising contracts are prohibited from

performing any works under the contract they are supervising.

2.1.2.2 Members of Professional Bodies

Councillors and Council Staff belonging to professional organisations shall, in addition to the obligations detailed in this policy, ensure that they adhere to any code of ethics or professional standards required by that body.

2.1.3 Tender Processes

All tender processes shall be conducted in accordance with the requirements of this policy and any associated Council policies, guidelines or procedures, relevant legislation, relevant Australian Standards and the Act. Refer to *1.2 Associated Policies, Guidelines and Procedures* for more information.

2.1.4 Conflict of Interest

Councillors and Council staff shall at all times avoid situations in which private interests conflict, or might reasonably be thought to conflict, or have the potential to conflict, with their Council duties.

Councillors and Council staff involved in the procurement process, in particular preparing tender documentation, including writing tender specifications, tender opening, and tender evaluation panels, must:

- **Avoid** conflicts, whether actual, potential or perceived, arising between their official duties and their private interests. Private interests include the financial and other interests of Councillors and Council Staff, plus their relatives and close associates
- **Declare** that there is no conflict of interest. Where future conflicts, or relevant private interests arise Council Staff must make their manager, or the chairperson of the relevant tender assessment panel or board aware and allow them to decide whether the officer should continue to be involved in the specific Procurement exercise
- **Observe** prevailing Council and Local Government Victoria guidelines (in particular the Staff Code of Conduct) on how to prevent or deal with conflict of interest situations; and not take advantage of any tender related information whether or not for personal gain.

Refer to *1.2 Associated Policies, Guidelines and Procedures* for more information.

2.1.5 Fair and Honest Dealing

All prospective contractors and suppliers must be afforded an equal opportunity to participate in a procurement activity.

Impartiality must be maintained throughout the procurement process, so it can withstand public scrutiny.

The commercial interests of existing and potential suppliers must be protected.

Confidentiality of information provided by existing and prospective suppliers must be maintained at all times, particularly commercially sensitive material such as, but not limited to prices, discounts, rebates, profit, manufacturing and product information.

2.1.6 Accountability and Transparency

Accountability in procurement means being able to explain and provide evidence on the process followed. The test of accountability is that an independent third party must be able to see clearly that a process has been followed and that the process is fair and reasonable.

Therefore, the processes by which all procurement activities are conducted will be in accordance with the Council's Procurement policies and procedures as set out in this policy and related Council policies and procedures.

Additionally:

- all Council Staff must be able to account for all Procurement decisions made over the lifecycle of all goods, services and works purchased by the Council and provide feedback on them; and
- all procurement activities are to leave an audit trail for monitoring and reporting purposes.

2.1.7 Gifts and Hospitality

Staff are obliged to notify their Manager of any gift, reward or benefit that they have received or have been offered. All gifts and acts of hospitality, regardless of their value, must be declared, and included in Council's Gifts Register.

Staff should not accept any gift where there is, or where there may be, the perception of a conflict of interest with past, present or future duties, or where the object of the gift is to maintain or return a favour.

Offers of bribes, commissions or other irregular approaches from organisations or individuals must be promptly brought to the attention of their Manager.

2.1.8 Disclosure of Information

Commercial in Confidence information received by Council must not be disclosed and is to be stored in a secure location.

Councillors and Council staff are to protect confidentiality, by refusing to release or discuss the following:

- Information disclosed by organisations in Tenders, Quotations or during Tender negotiations;
- All information that is Commercial in Confidence; and
- Pre-contract information including but not limited to information provided in quotes and tenders or subsequently provided in pre-tender negotiations.

Councillors and Council Staff are to avoid references to current or proposed contracts in discussion with acquaintances or outside interests.

Discussion with potential suppliers during tender evaluations should not go beyond the extend necessary to resolve doubt on what is being offered by that supplier.

At no stage should any discussion be entered into which could have potential contractual implications prior to the Contract approval process being finalised other than through authorised pre-contract negotiations.

2.2 Governance

2.2.1 Structure

The Council shall:

- establish a procurement management responsibility structure and delegations ensuring accountability, traceability and auditability of all Procurement decisions made over the lifecycle of all goods, services and works purchased by the Council;
- ensure that the Councils Procurement structure:
 - obtains value for money
 - is flexible enough to purchase in a timely manner the diverse range of material, goods, works and services required by Council;
- ensures that prospective contractors are afforded an equal opportunity to register as an approved preferred contractor;
- encourages competition.

2.2.2 Responsible Financial Management

The principle of responsible financial management shall be applied to all procurement activities.

Accordingly, to give effect to this principle: the availability of existing funds within an approved budget, or source of funds, shall be established prior to the commencement of any Procurement action for the supply of goods, services or works.

Council Staff must not authorise the expenditure of funds in excess of their financial delegations. (Refer to 2.4.1 and 3.4.1)

Council staff must not disclose allocated procurement activity budgets to suppliers.

Council funds must be used efficiently and effectively to procure goods, services and works and every attempt must be made to contain the costs of the procurement process without compromising any of the procurement principles set out in this Policy.

2.3 Procurement Thresholds and Competition

Our economic system relies on firms competing for business so that prices are truly determined by the market. Competition rewards those firms that innovate and strive to deliver the best value for money. Conversely, firms that are less efficient and fail to respond to the needs of customers will not prosper. Market economies need strong regulations to counter the temptation for inefficient suppliers to collude and undermine the competitive process.

2.3.1 Requirement

The Council will from time to time decide and publish in this policy clear guidelines for minimum spend competition thresholds. These will be decided by the Council based on the size and complexity of the proposed procurement activities.

Where a Purchase Order is used, it must be raised prior to the purchase being made following the required quotation process (according to the level of

expenditure as reflected in Table 1).

2.3.2 Approved Methods

The Council's standard methods for purchasing goods, services and works shall be by:

- petty cash;
- **corporate credit card**;
- purchase order which must be raised prior to the purchase being made, following a quotation process;
- under contract following a tender process; or quotation processes; or
- Group Purchasing Schemes - where the Council is satisfied that Value for Money requirements have been satisfied, under purchasing schemes including collaborative purchasing arrangements with other Councils and commercial schemes such as provided by MAV Procurement or Procurement Australia; or
- unless arrangements otherwise authorised by the Council or the CEO on a needs basis are required by abnormal circumstances such as emergencies.

The Council may, at its discretion and based on the complexity and cost of the project, conduct one stage or multi-stage tenders.

Typically, a multi-stage tender process will commence with an expression of interest stage followed by a tender process involving the organisations selected as a consequence of the registration of interest stage.

Expressions of Interest (EOI) may be appropriate where:

- the requirement is complex, difficult to define, unknown or unclear;
- the requirement is capable of several technical solutions;
- the Council wishes to consider ahead of formal tender processes such issues as whether those tendering possesses the necessary technical, managerial and financial resources
- to successfully complete the project;
- tendering costs are likely to be high and Council seeks to ensure that companies incapable of supplying the requirement don't incur unnecessary expense;
- it is necessary to pre-qualify suppliers and goods to meet defined standards; and
- the requirement is generally known but there is still considerable analysis, evaluation and clarification required (both of the objective and the solution).

2.3.3 Appointment of an Agent for Procurement

In consideration of the appropriate Procurement process to follow, Council may join with other Councils as a defined group, based on similar requirements for products, goods or services. In doing so, Council may nominate to appoint another council to act as Council's Agent or for Council to act as Agent for other Councils.

Council is able to access contracts from State Government, Municipal Association of Victoria Procurement (MAVP) and Procurement Australia (PA) via Approval of Arrangements (section 186(5)(c) of The Act). This means that Council can utilize the rates and suppliers established under any existing State Government, MAVP or PA contract without the requirement to complete the formal agency appointment process. This does not negate the requirement for financial approval dependent on delegation limits.

Where Council requires an Agent to act on Council's behalf for the Tendering process, governance arrangements will be required including;

- Formal appointment of the Agent;
- Review of the Specification to meet Council's requirements; and
- Advice to the Agent of Council's Procurement Policy requirements including evaluation criteria, Tender panel and weightings to the criteria.

2.3.4 Minimum Spend Competition Thresholds

Purchase of all goods and services for which the estimated expenditure exceeds \$150,000 (inclusive of GST) or \$200,000 (inclusive of GST) for contracts for the carrying out of works, must be undertaken by public tender.

However, this does not preclude the tendering for contract works of lesser amounts should this be in the best interests of a value for money outcome.

In addition, where there is a possibility that the service being provided may exceed the threshold, then it should also be tendered.

For example, the number of rates assessments grows each year as new subdivisions come online. If the current cost of the contract is \$45,000 per year (\$135,000 over 3 years), based on current volumes, it could easily exceed \$150,000 over three years with additional growth in the Shire.

The level of expenditure in accordance with the following table determines the appropriate procurement methodologies. Staff should consider the total value of the procurement for an ongoing commitment. Tenders should be called for all high-risk procurement no matter what the expenditure level.

TABLE 1

EXPENDITURE LEVEL INC GST	VERBAL QUOTE	GROUP PURCHASING SCHEME (refer to 2.3.2)	WRITTEN QUOTE	PUBLIC TENDER	APPROVED METHODOLOGY
<\$100	1				Petty Cash Corporate Credit Card
\$100 to \$5,000	1	Yes	Optional		Corporate Credit Card Purchase Order
\$5,000 to \$25,000	2	Yes	Optional	Optional	Purchase Order Contract
\$25,000 to \$150,000 Goods/Services		Yes	3	Optional	Purchase Order Contract
\$25,000 to \$200,000 Works		Yes	3	Tender Optional. If not, contractors must be registered as approved contractors	Purchase Order Contract
>\$150,000 Goods/Services				Yes Required by s186 of the LGA	Purchase Order and/or Contract
>\$200,000 Works				Yes Required by s186 of the LGA	Contract

For the purposes of the table above the expenditure levels (inclusive of GST) are calculated as follows:

- for single one-off purchases shall be the value of, or estimated value of the purchase
- for multiple purchases shall be the gross value of, or estimated gross value of all items to be purchased
 - i.e. buying 30 computers at \$2,000 each is not to be considered 30 separate one-off purchases, but is to be viewed as a spend of \$60,000, therefore requiring 3 written quotes, a public tender, or use of a group purchasing scheme
- for ongoing purchases over a period of time shall be the annual gross value of, or estimated annual gross value of purchases
 - i.e. hire of water carts over a 6-month period for different work sites around the Shire should be considered as one purchase of the same nature
 - for contracts spanning a number of years, the value of the expenditure is the total estimated spend for all years specified for the service, including any optional extension periods.

It is unacceptable to divide a particular procurement or procurement phase into separable parts or use a particular method for calculating the estimated total value of procurement for the purpose of circumventing an approach to the open market.

Verbal quotations

Quotations must be sought as per Table 1, and details recorded in Council's corporate system, Authority, when raising the purchase order. Where only one quote is required, the receipt of purchase is sufficient for recording purposes.

Written quotations

When written quotations are sought, details must be stored in Council's corporate record system, Authority, when raising the purchase order.

Council will endeavor to obtain at least one quote from a local supplier wherever possible. (refer to 4.1)

Insufficient quotations

The situation may arise where insufficient quotations are received to satisfy the above requirements. This may occasionally occur where there are few local suppliers for the goods, services or works being sought or the work is highly specialised. In this case, the details of the contacted suppliers must be recorded in the corporate system and an appropriate comment recorded when raising the purchase order.

Random audits will be conducted on purchase orders of this nature.

Cumulative Spend

Council will monitor cumulative spend with suppliers at least annually. If expenditure with a supplier or a number of suppliers providing similar goods, services and works is ongoing in nature and the cumulative spend is likely to exceed the legislated threshold over a two year period, then Council will review the opportunity to pursue a contract for such goods, services and works through a competitive process.

Approved Contractors

Council shall maintain a register of approved contractors, who have met Council's requirements in terms of OH&S systems and processes. All works must be undertaken by approved contractors.

2.4 Delegation of Authority

2.4.1 Requirement

Delegations define the limitations within which Council staff are permitted to work. Delegation of procurement authority allows specified Council staff to approve certain purchases, quotations, tenders and contractual processes without prior referral to the Council. This enables the Council to conduct procurement activities in an efficient and timely manner whilst maintaining transparency and integrity.

Procurement delegations ensure accountability and provide confidence to Council and the public that purchasing activities are dealt with at the appropriate level.

The Instrument of Delegation by CEO to staff identifies Council Staff authorised

to make procurement commitments in respect of goods, services and works on behalf of the Council.

2.4.2 Delegations Reserved for the Council

Council must approve the award of all contracts exceeding a limit as determined by the Instrument of Delegation to the Chief Executive Officer (\$400,000 as at 5 December 2017).

2.5 Internal Controls

The Council will install and maintain a framework of internal controls over procurement processes that will ensure:

- more than one person is involved in and responsible for a transaction end to end (from purchase to payment);
- transparency in the procurement process;
- a clearly documented audit trail exists for procurement activities;
- appropriate authorisations are obtained and documented; and
- systems are in place for appropriate monitoring and performance measurement.

2.6 Commercial Information

Procurement activities will be carried out in a way that supports Council staff in meeting their obligations - to ensure information of a commercially sensitive or confidential nature is obtained, stored, processed, published (where applicable) in an appropriate manner in accordance with the relevant Council guidelines.

2.7 Risk Management

2.7.1 General

Risk Management is to be appropriately applied at all stages of Procurement activities which will be properly planned and carried out in a manner that will protect and enhance the Councils capability to prevent, withstand and recover from interruption to the supply of goods, services and works.

2.7.2 Supply by Contract

The provision of goods, services and works by contract potentially exposes the Council to risk.

The Council will minimise its risk exposure by measures such as:

- standardising contracts to include current, relevant clauses;
- requiring security deposits where appropriate;
- referring specifications to relevant experts;
- requiring contractual agreement before allowing the commencement of work;
- use of or reference to relevant Australian Standards (or equivalent); and
- effectively managing the contract including monitoring and enforcing performance.

2.8 Contract Terms

All contractual relationships must be documented in writing based on standard terms and conditions, including dispute resolution and contract management requirements. Where this is not possible, approval must be sought from the Manager Corporate Finance. Upon approval, relevant procurement and legal advice should be sought where necessary.

To protect the best interests of the Council, terms and conditions must be settled in advance of any commitment being made with a supplier. Any exceptions to doing this expose the Council to risk and thus must be authorised by the Manager Corporate Finance.

2.9 Contract Management

The purpose of contract management is to ensure that the Council, and where applicable, its clients, receive the goods, services or works provided to the required standards of quality and quantity as intended by the contract by:

- establishing a system of monitoring and achieving the responsibilities and obligations of both parties under the contract; and
- providing a means for the early recognition of issues and performance problems and the identification of solutions;
- adhering to Council's Risk Management Framework and adhering to relevant Occupational Health and Safety Contractor compliance procedures.
- Goods, services and works have been completed to Council satisfaction prior to payment occurring.

Furthermore, contracts are to be proactively managed by the member of Council staff responsible for the delivery of the contracted goods, services or works to ensure the Council receives Value for Money.

3 Demonstrate Sustained Value

3.1 Integration with Council Strategy

The Council procurement strategy policy shall support its corporate strategy, aims and objectives, including but not limited to those related to sustainability, protection of the environment, corporate social responsibility and meeting the needs of the local community such as:

- feeling safe;
- living in a clean and pleasant environment; and
- receiving good quality well managed Council services that are Value for Money.

3.2 Achieving Value for Money

3.2.1 Requirement

The Council's procurement activities will be carried out on the basis of obtaining Value for Money. This means minimising the total cost of ownership over the lifetime of the requirement consistent with acceptable quality, reliability and delivery considerations. Lowest price is not the sole determinant of best value.

3.2.2 Approach

This will be facilitated by:

- developing, implementing and managing procurement strategies that support the co- ordination and streamlining of activities throughout the organisation;
- effective use of competition;
- using aggregated contracts and standing offer arrangements (SOA) where appropriate;
- identifying and rectifying inefficiencies in procurement processes;
- developing a more cost efficient tender process including appropriate use of e-solutions;
- Council staff responsible for providing procurement services or assistance within the Council providing competent advice in terms of available products and agreements; and
- working with suppliers to create relationships that are professional and productive and are appropriate to the value and importance of the goods, services and works being acquired.

3.2.3 Role of Specifications

Specifications used in quotations, tenders and contracts are to support and contribute to the Council's Value for Money objectives through being written in a manner that:

- clearly defines the Council's requirements
- ensures impartiality and objectivity;
- encourages the use of standard products;
- encourages sustainability;
- eliminates unnecessarily stringent requirements; and
- determines the quality of the outcome

3.3 Sustainability

The Council is committed to achieving sustainable Procurement within the context of purchasing on a Value for Money basis, by ensuring that it monitors and reports on Council activities that have an impact on or contribute to the environment, including:

- waste management
- recycling
- energy management
- emission management
- water conservation
- green building design; and
- procurement

Value for Money purchasing decisions made by the Council are made on the basis of cost and non-cost factors including contribution to the Council's sustainability objectives.

3.4 Performance Measures

Council will establish and put in place appropriate performance measures. Reporting systems will be used to monitor performance against metrics and compliance with procurement policies, procedures and controls.

Council will use the performance measurements developed to:

- Highlight trend and exceptions where necessary to enhance performance;
- Improve the internal efficiency of the procurement process and where relevant the performance of suppliers; and
- Facilitate relevant programs to drive improvement in procurement to eliminate waste and inefficiencies across key spend categories.

3.4.1 Breaches of the Policy

Any possible breaches of the requirements of the *Local Government Act 1989* s186 (the requirement to publicly tender for any contracts to be awarded above a nominated threshold) will be investigated and the contract will be listed in Council's Annual Report as required by the *Local Government (Planning and Reporting) Regulations 2014*, Regulation 14(cb).

Breaches of the spend thresholds for purchases below the requirements of s186 of the Act will be dealt with in the context of performance management discussions with the relevant staff.

4 Build and Maintain Supply Relationships

Council recognises that in order to achieve sustainable value, appropriate relationships must be developed and maintained with suppliers and that it seeks to operate with 'informed choice' on what supply strategy it adopts – whether to 'do it yourself', participate in regional or sector aggregated projects or to access State Government panel agreements. Council will consider supply arrangement that deliver best value outcomes for council in terms of time, cost, value and outcome.

4.1 Support of Local Business

Social procurement involves using procurement processes and purchasing power to generate positive social outcomes in addition to the delivery of efficient goods, services and work.

For Local Government social procurement builds on initiatives already undertaken by the sector in enhancing sustainable and strategic procurement practice, enabling procurement to effectively contribute to building stronger communities.

Council is committed to:

- Ensuring that procurement practices are strategically aligned with Councils wider objectives
- Purchase ethical and fair trade goods to support equitable, local, national and international trade
- Enhance partnerships with community stakeholders, suppliers and other Councils
- Provide opportunities to business who support, aboriginal people, people with disabilities and disadvantaged people.

In addition, the *Local Government Act 1989* requires that Council must give effective and substantial preference to contract for the purchase of goods, machinery or material manufactured or produced in Australia or New Zealand.

Council will endeavor to obtain at least one quote from a local supplier wherever possible (refer to 2.3.3)

4.2 Social Procurement

Social procurement involves using procurement processes and purchasing power to generate positive social outcomes in addition to the delivery of efficient goods, services and works.

For Local Government social procurement builds on initiatives already undertaken by the sector in enhancing sustainable and strategic procurement practice, enabling procurement to effectively contribute to building stronger communities.

Social procurement is a key mechanism by which to generate wider social benefits by providing a mechanism for linking and integrating social and economic agendas.

4.3 Developing and Managing Suppliers

Council recognises the importance of effective and open working relationships with its suppliers, and is committed to the following:

- Managing existing suppliers, via the appropriate development programs and performance measurements to ensure the benefits are delivered;
- Developing approved supplier lists; and
- Developing new suppliers and improving the capability of existing suppliers where appropriate.

4.4 Relationship Management

The Council is committed to developing constructive long-term relationships with suppliers. It is important that the Council identifies its key suppliers so that its efforts are focused to best effect. Such areas may include:

- Size of spend across the Council;
- Criticality of goods / services, to the delivery of the Council's services;
- Availability of substitutes; and
- Market share and strategic share of suppliers.

4.5 Communication

External

External communication is very important in ensuring a healthy interest from potential suppliers and partners to the Council. The external website will be updated and provide:

- Information about Council and how to become an approved contractor;
- A list of existing contract opportunities;
- Guidelines for doing business with Council; and
- Links to other relevant sites.

Internal

Council is committed to providing ongoing training to all staff with procurement responsibilities, which will include:

- Initial training prior to undertaking any procurement activities (new staff); and
- Ongoing annual refresher training for all staff engaged in procurement.

4.6 Continuous Improvement

The Council is committed to continuous improvement and will review the procurement policy on an annual basis, to ensure that it continues to meet its wider strategic objectives.

In particular, Council will continue to explore the potential cost implications for 'greening' the supply chain, and minimising waste through use of eco-friendly, recycled or recyclable products.

APPENDIX A

EXEMPTION LIST – No Purchase Orders Required (Corporate Credit Cards are alternative to purchase orders)

- Accommodation/travel
- Advertising placement fees
- Agency Staff (including labour hire contractors and umpires)
- Audit Committee
- Community Hall Hire
- Conferences
- Contractual Agreements (i.e. software maintenance/licences, debt collection, leases, secure pay)
- Contributions (i.e. grants, sponsorships, Committee of Management (COM) operating subsidy)
- Councillor Allowances & reimbursements
- Couriers/ freight only accounts
- Daily food purchases for Aqua Energy café/kiosk (i.e. fruit, vegetables, bread)
- E-tags
- Emergency after- hours repairs/maintenance, up to 3 days after emergency first occurred
- Equipment Inspections (i.e. CFA, First Aid kits)
- Fuel Accounts
- Government/statutory charges (i.e. EPA levy, licenses, police checks)
