News Sections Carousel

Compact + Regular class width solution (same solution right?)

Same solution

Is scrolling free-form (like fixed Markets Panel) or "sticky" (like regular Markets Panel)?

Free-form

Regular and Highlighted state for the carousel items?

Alpha dim to .5

Fixed size carousel items or variable to the text size?

Variable with min-width 76pt

Do we want this Carousel Section to show up in "Other Sections" when it's unselected? It will need to show up in the Edit modal regardless.

No

Do we want the header to open to a See All view? Do we want a See All view for this Section at all? (if it's in Other Sections it will need it.)

Unnecessary

What is the name of this Section? "Your Sections" "News Sections" etc. ...

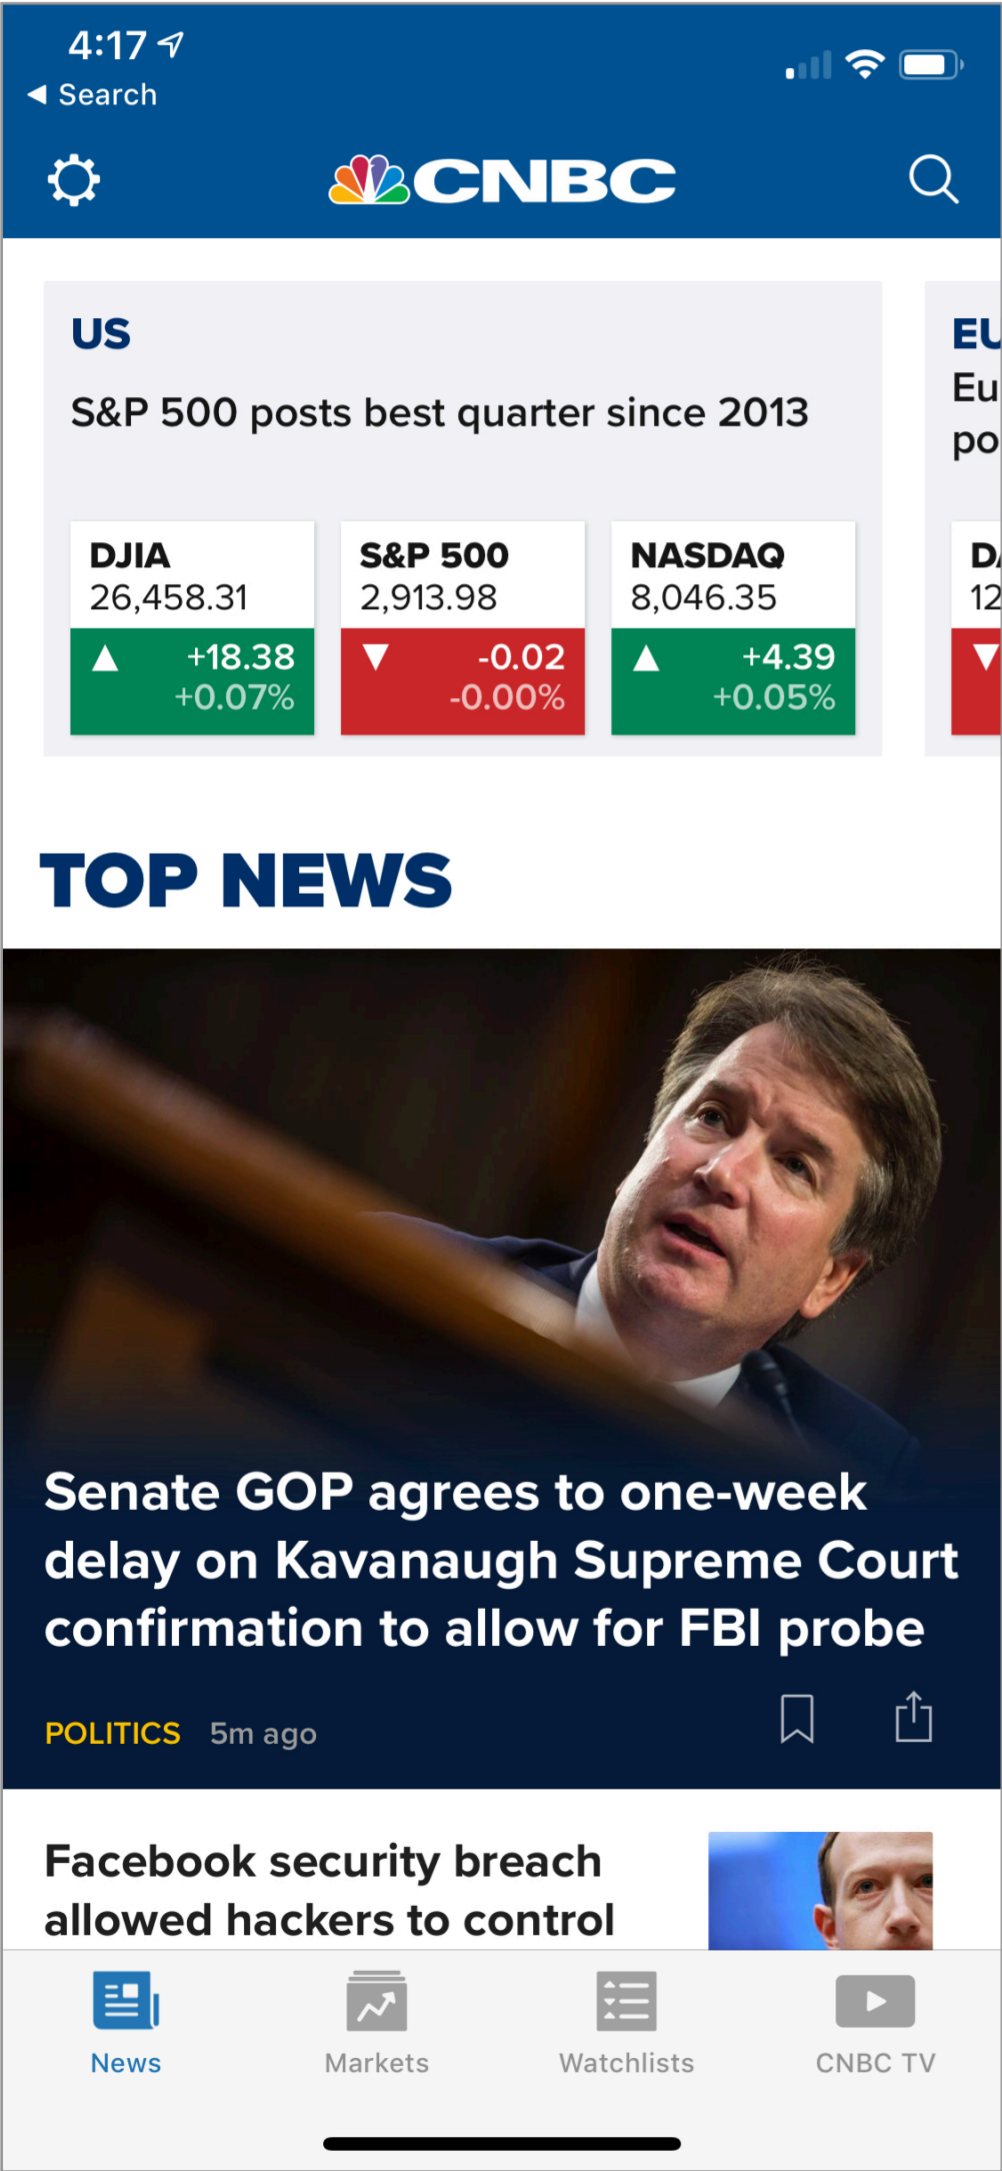

News Sections

NEWS SECTIONS

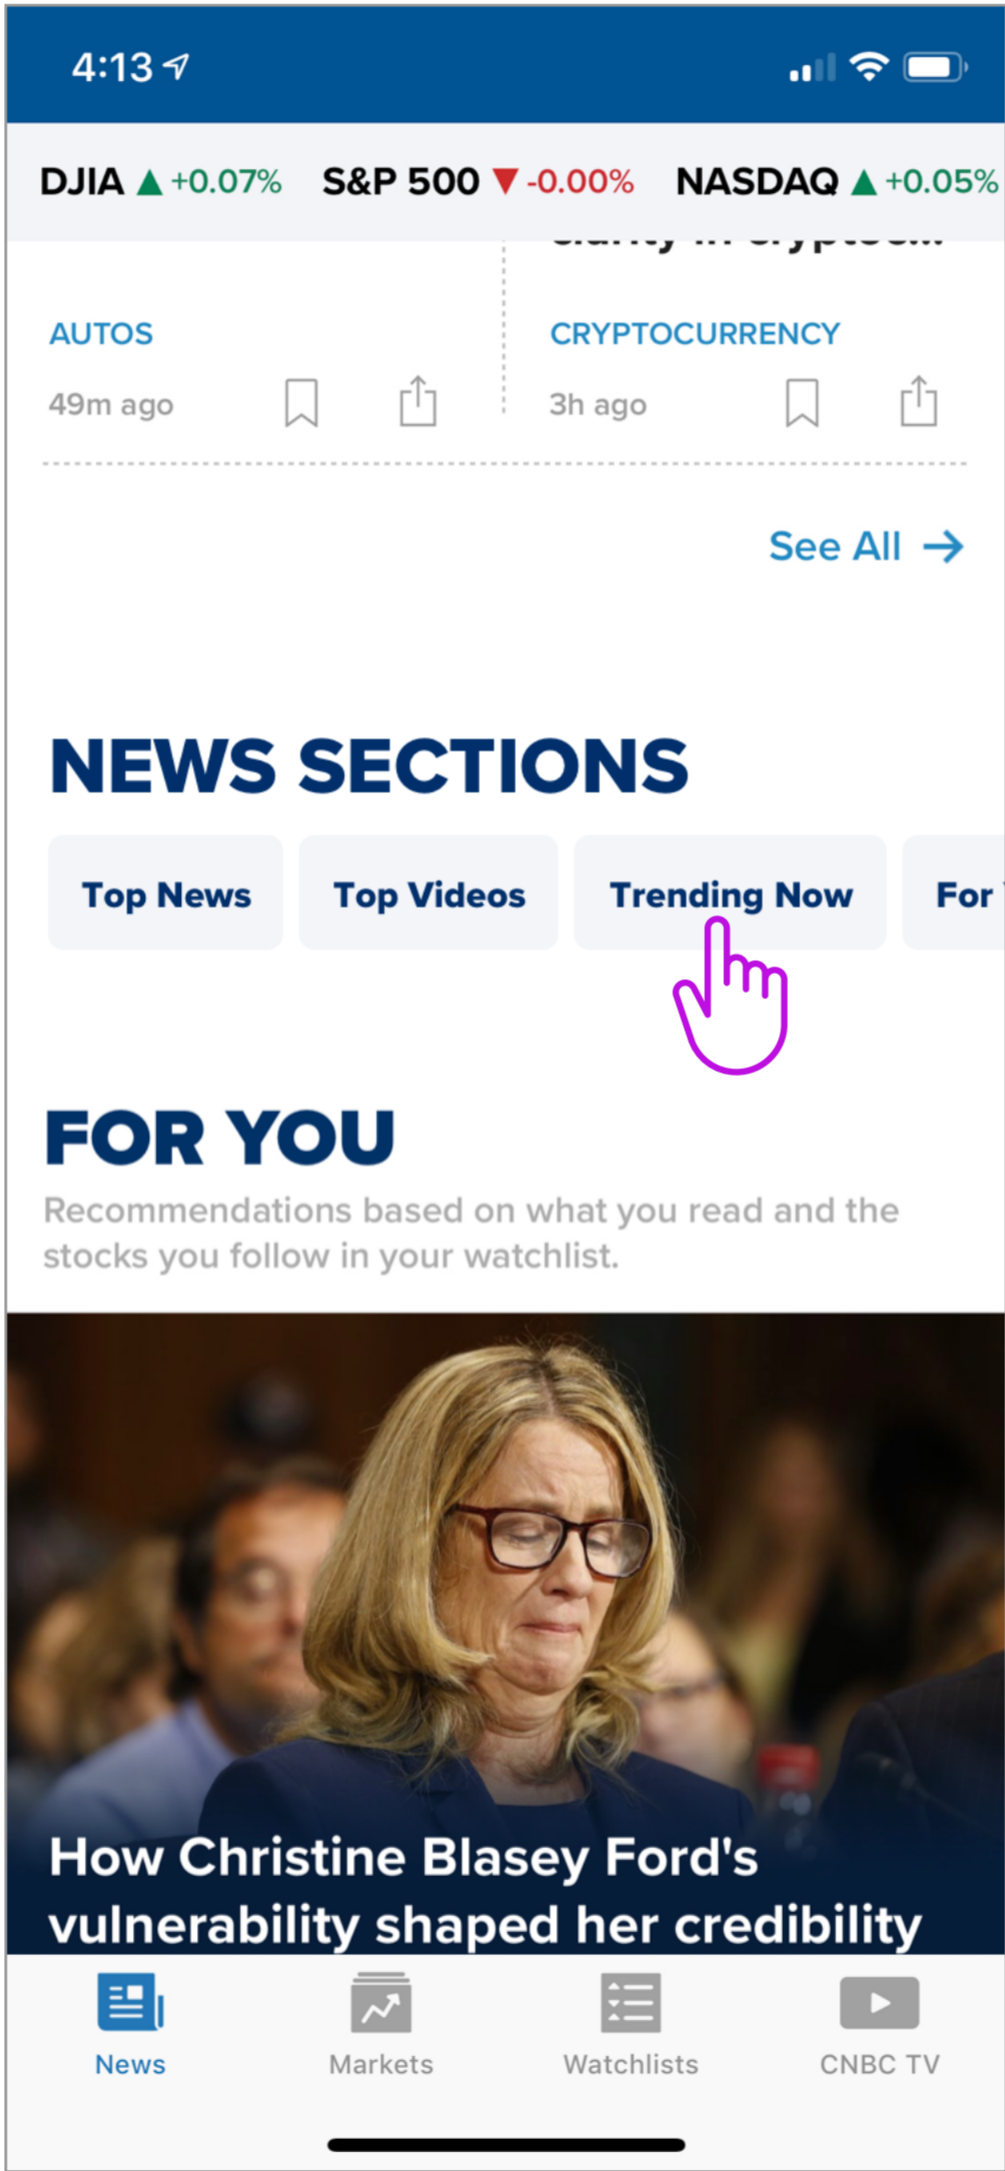

News Tab

User launches app and News tab view loads

User scrolls down view and taps on section in carousel

Section aggregate page pushes over from right
