

linelube Engine Oil 20W-20

Product Description

linelube 20W-20 engine oil is a superior quality engine lubricant. The combination of solvent refined base oils and high technology additives is designed to give maximum protection to engines working under moderate to severe conditions. The state-of-the-art additives prevent build-up of carbon and lacquer deposits on piston ring grooves and valve stems and dramatically reduce the corrosive effects of the products of combustion.

Features & Benefits

- Excellent high temperature stability
- Improved bore polishing protection
- Excellent anti wear performance for reduced engine wear
- Excellent sludge control

Applications

linelube 20W-20 may be used in a variety of turbocharged and naturally aspirated diesel engines where a SAE 20W-20 or even a 20W lubricant is specified. Typical applications are earth movers, general plant equipment, large and small trucks, vans and taxis. This product may also be suitable for use in plant equipment hydraulic systems, transmissions and torque converters. Refer to manufacturer handbook.

Specifications

- **API:** CE/SG
- **Allison:** C3
- **Caterpillar:** TO-2
- **CCMC:** D4
- **Mack:** EO-K
- **MAN:** 270, 271
- **MB:** 227.0, 227.1
- **Military:** MIL-L-46152B, MIL-L-2104D

Typical Test Data

Specific Gravity @ 15.6°C	0.883
Kinematic Viscosity @ 40°C	59.02
Kinematic Viscosity @ 100°C	8.19
Viscosity Index	107
Pour Point (°C)	-30
Flash Point COC (°C)	220
Total Base Number (mg KOH/g)	9.14
