Water Valves	Integrated 500kPa Pressure limiting valve and Dual Check Valve
Power Rating	1.8kW 220-240V 50Hz
Booster Power Rating	Zip HydroTap Booster 2.2kW 220-240V 50/60Hz
Power Supply	2 x 10 Amp socket outlets
Dimensions	W280mm x D313mm x H333mm
Product Approvals	WaterMark, RCM
Warranty	5 years (appliance warranty 36 months plus additional 24 months tank warranty)

Installation Requirements

1. Installation and connection of your Zip HydroTap must be carried out by a qualified person, observing national and local regulations. 2. You will require suitable mains electrical and drinking water connections, plus waste water drainage all within 1.5 metres of the product. 3. HydroTap is air-cooled so discrete cabinetry cut-outs are required for ventilation. 4. Installation on most bench tops is straightforward however some stone bench tops may require a specialised cutting service. 5. If you live in a hard water area, we recommend installation of a Zip scale filtration kit. 6. Installation by Zip Professional Service can be arranged with a phone call or through www.zipwater.com

Installation Detail

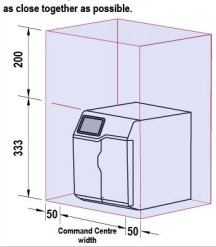
BKL2 HydroTap G5 v1.01 03.21 B, BA

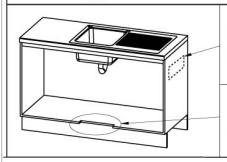
Ventilation requirements

Contact your local service provider if ventilation is not suitable

Clearance envelope

Position the Tap and the Command Centre as close together as possible.

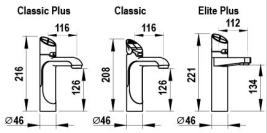




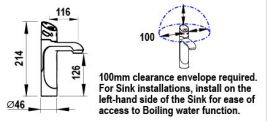
Air outlet louvre (if required)
Cut-out in door/wall, towards the top of the cabinet

Air inlet cut-out (required)
Cut-out in cabinet floor

HydroTap Tap options



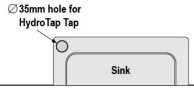
Touch-Free Wave



100mm clearance envelope required. For Sink installations, install on the left-hand side of the Sink for ease of access to Boiling water function.

Tap Positioning

Position the Tap to dispense into the sink, allowing clearance for a cup or teapot. Alternatively, mount the HydroTap Tap on a Font (available as an accessory).



Font options

Raised Font
with 135mm Extension
