Operations Specialist's New Book Tackles the People-First Approach

"The Human Team®" by Business Alchemist founder Jeanet Wade is released with ForbesBooks.

NEW YORK, March 9, 2021 /PRNewswire/ — The Human Team®: So, You Created a Team But People Showed Up! by Business Alchemist founder Jeanet Wade is now available. The book is published with ForbesBooks, the exclusive business book publishing imprint of Forbes.

With The Human Team®, Jeanet Wade resolves to give leaders an adaptable framework for gaining a better understanding of team dynamics so that their organization can thrive. The Human Team® serves as a culmination of Wade's years of hands-on experience and a practical guidebook for helping leaders navigate their own paths of people-first leadership more effectively. Wade's insights make The Human Team® a timely read for the era of remote work.

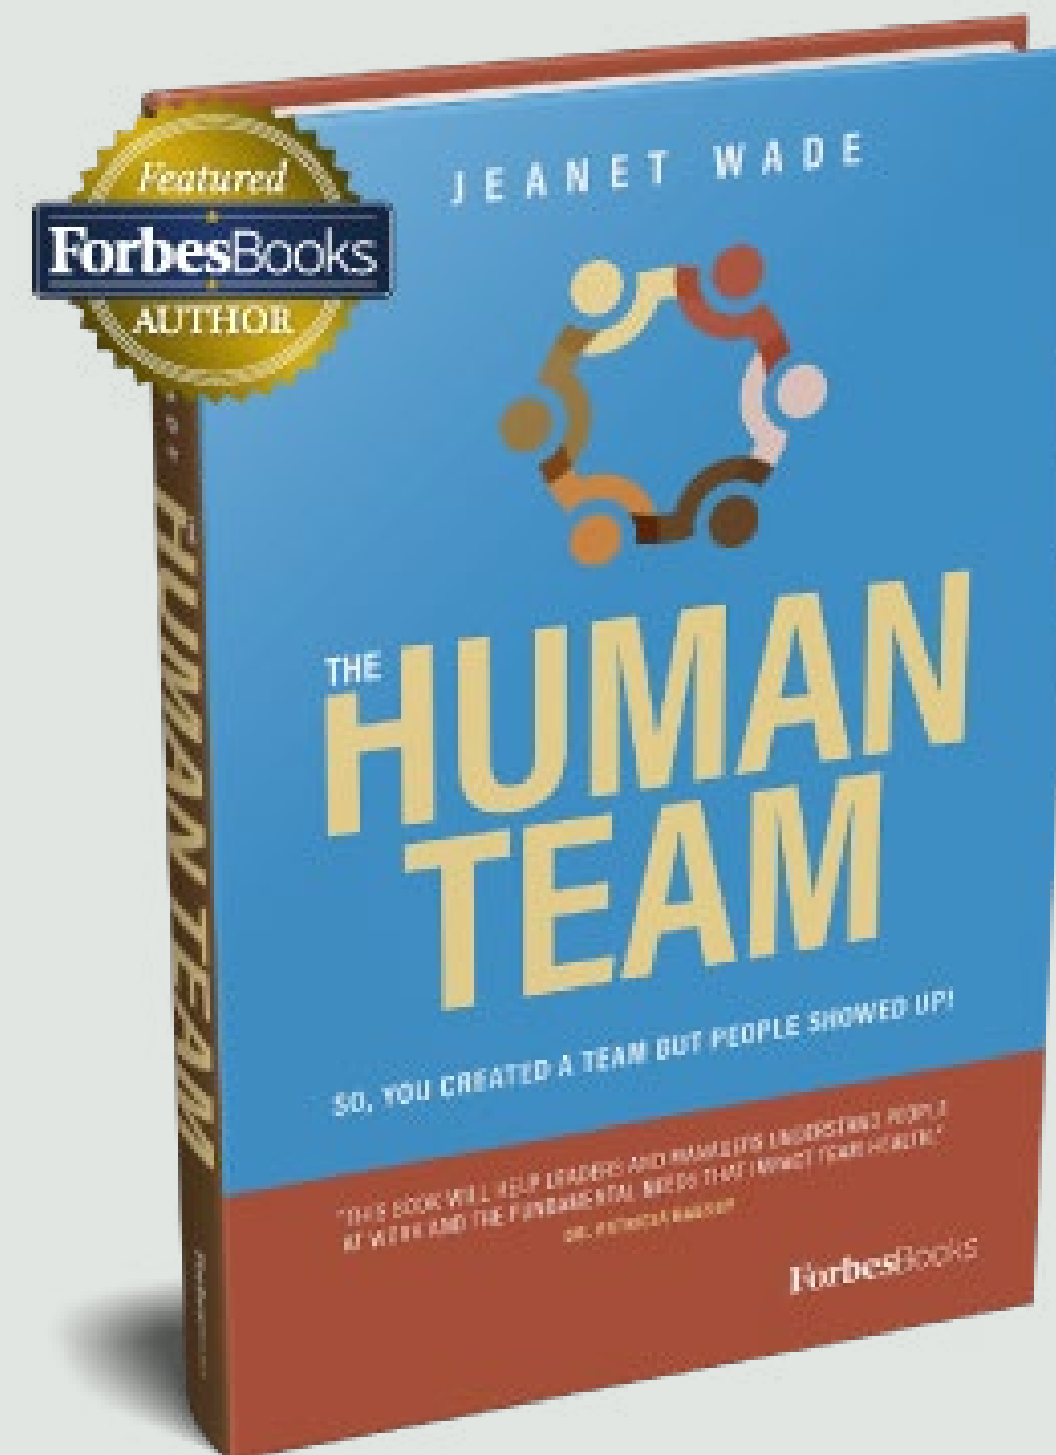

"I wrote this book to share these insights and help leaders crack the code for cultivating human energy and unleashing stronger outcomes for their people, teams, and organizations," said Wade.

By the book's end, leaders are equipped with sophisticated strategies for successfully managing human nature so they can nurture excellence in their people. Built around Wade's 6 Facets of Human Needs™, she uses personal vignettes to reveal how Confidence, Clarity, Connection, Contribution, Challenge, and Consideration are the essential building blocks for any successful team.

"Over the past few decades, I've seen leaders, managers, and facilitators succeed and I've seen them fail," Wade noted. "The common denominator in both cases — people!"
