Plan your Success Story

How important are each of the following areas?		<< Extremely Important											Not Important >>
	N/A	10	9	8	7	6	5	4	3	2	1	0	
BASIC FEATURES													
Ease of Install													
Ease of Autorelocation													
Ease of Geofencing Features													
Ease of Inventory Search													
Ease of Asset Recovery													
Ease of Utilization Visibility													
REPORTING													
Ease of Inventory Reports													
Ease of Billing Reports													
Ease of Utilization Reports													
SUCCESS STORY													
Measurable reduction in tool search time													
Measurable reduction in workers waiting													
Measurable reduction in tool rental costs													
Elimination of tool scanning													
Elimination of battery management													
Reduction in management analysis time													
Noticeable improvement in perception of tool tracking among workers
