

E-One™

Contains a source of live (viable) naturally occurring microorganisms.

Guaranteed Analysis

(*Pediococcus pentosaceus*, *Lactococcus lactis*, *Enterococcus faecium*, *Lactobacillus plantarum*, *Lactobacillus casei*, *Lactobacillus brevis*)

Total Yeast (minimum) 85 million cfu/gram
(Active Dry Yeast *Saccharomyces cerevisiae*)

Propionibacterium freudenreichii (minimum) 30 million cfu/gram

Ingredients

Flaxseed, plant protein products, sodium bentonite, dried *Pediococcus pentosaceus* fermentation product, dried *Lactococcus lactis* fermentation product, dried *Enterococcus faecium* fermentation products, dried *Lactobacillus plantarum* fermentation product, dried *Lactobacillus casei* fermentation product, dried *Lactobacillus brevis* fermentation product, and dried *Propionibacterium freudenreichii* fermentation product.

Smartbacteria Strains:

A4000h™ *Pediococcus pentosaceus*
A2020™ *Lactococcus lactis*
2E-1™ *Enterococcus faecium*
EF141™ *Enterococcus faecium*
LC222™ *Lactobacillus casei*
LBR1000™ *Lactobacillus brevis*
LP100™ *Lactobacillus plantarum*
Prop1-IAC™ *Propionibacterium freudenreichii*

Found Only in Priority IAC Products

For Horses of All Ages

E-One™

Directions for Use

Mix daily with feed, grain, or top dress on hay. For best results, feed one week before including grain. May mix with water.

Horse	Amount/Day	Scoops/Day
• Active adult – not fed grain • Weighs less than 500 lbs	7.5 grams	½ scoop
• Gestating mare • Active riding horse fed grain • Geriatric horse • Performance/show horse in training	15 grams	1 scoop
• Additional digestive support	30 grams	2 scoops

Storage Recommendations

Store in a cool dry area out of direct sunlight.
