

NextGen Learning Environment at NOIDA Campus

Campus is designed to offer 21st century learning experience through NextGen facilities such as digital classrooms, skill-based studios and exclusive spaces for innovation and collaboration. An epitome of new-age learning, the facilities nurture young minds into global citizens of tomorrow.

9 GEMS™ Holistic Framework

Our award-winning dynamic educational framework, 9 GEMS™ is aimed at all-round development of students through an integrated, holistic approach to learning. Combining the best of both eastern and western practices, the award-winning 9GEMS model, at GIIS Noida, extends learning beyond academics with equal focus on extracurricular activities and value-based education.

Global Montessori Plus (GMP Programme)

A futuristic approach to early years education

Global Montessori Plus Programme at GIIS is an award winning programme combining the best of pre-school learning practices with the widely acclaimed Montessori Education System.

Global
Montessori
Plus

Igniting a passion for learning

We believe in recognising the uniqueness of each child by working towards identifying and enhancing their latent talents. Through Global Montessori Plus Programme, we make learning easy with age appropriate hands on learning activities that foster each child's creativity. We encourage healthy eating habits, sharing and caring while infusing empathy along with others universal values.

Award-Winning Curriculum

Our specially curated Global Montessori Plus (GMP) Programme, is an award-winning framework that is an amalgamation of the reputed Montessori approach coupled with the best practices in pre-school education worldwide.

5 Core Pillars of Global Montessori Plus (GMP) Programme

Excelerate Programme

Helps children master literacy and numeracy skills through a structured approach.

Multi-Faceted Learning

Nurtures every child's inherent personality traits through thematic learning addressing the brain's eight intellectual capacities.

iPlay

Focuses on play-based learning approach that develops a life-long interest in exploration.

iCare

Inculcates values of sharing and caring through environment and community-based activities.

Future-Ready

Builds an early foundation into STEAM and promote digital literacy through exposure to age-appropriate technologies.

5 reasons to choose GMP

Experienced Teachers

Our educators possess certifications and extensive expertise in the domain. All our teachers are NTT certified in early years education.

Play-Based Learning Environment

Our programme offers ample structured play activities and resources to build and enhance communication, motor, exploratory and social skills.

Plus

Thinking Thursday, Math Magic, Speak Up, Use of AR, Virtual tours, Celebration of festivals, Special weeks, Personality Development, Global Virtual Connect activities, Pre-coding & Coding, iCare activities.
