OUR FEEDBACK

Sebastian is a professional marketer. The fact that he has worked with classical marketing before starting working as a digital marketer means that he is able to see the world of advertising differently.

He fits well into a small marketing team, but he is happy to work on short term projects where he can run campaigns. But, as he has showed loyalty to his clients by working with them for a long period of time, he can also be a more permanent member of a marketing team, or as a marketing lead.

He speaks many languages, English, Italian, Spanish, and Portuguese and would be an asset for companies operating in the South-American market.
